Livingstone Engineering is your one-stop shop for steel components for bridges.

Summary

A force in the industry since 1957, we have the experience and expertise to manufacture a wide range of construction fasteners, fabricate light to heavy steelwork, as well as provide onsite installation.

We are also your one stop shop for bridge steel - above deck, below deck, footings & foundations.

As a DTMR high quality supplier we are continually striving to deliver quality product, at a competitive price, to clients' specifications and timelines.

Description

Livingstone Engineering is your one-stop shop for steel components for bridges. We have the facilities and expertise to manufacture hold down bolts and fabricate light to heavy steelwork. We are approved suppliers to DTMR, RMS, Brisbane City Council, Queensland Rail, Energex and Ergon -

just to name a few. At Livingstone Engineering, we pride ourselves on our customer service, hence we strive to deliver quality product at a competitive price to our clients' specifications and required timelines.
