NMT International (Australia) Pty Ltd is a private independent Australian owned Shipping and Transport Company within the NMT Group of Companies (established in 1976). Specialising in Oversize Transport or anything larger than a container.

## Summary

NMT successfully carries out a wide range of specialised global Logistics services in a broad range of disciplines including but not limited to; Mining, Oil and Gas, Chemical,

Marine, Materials Handling, Power Generation, Civil, Treatment Processing, Break Bulk as well as general commodities and freight forwarding.

## Description

A fundamental element to NMT's business operations is the strategic planning in overseeing all areas of pre-shipment and on carriage delivery stages, taking into account any technical barriers and relevant statutory requirements to ensure a timely integrated logistics solution to the destination site all the while being focused on maximizing economic efficiencies wherever possible. NMT's capabilities and strengths are demonstrated with:

- Flexible and hands-on approach to a complete project management solution to client's individual needs.
- NMT's specialised personnel include Supercargoes, Maritime Engineers and Port Captains which provides years of expertise on technical operations and logistics planning.
- Our extensive business channels allow NMT to source any type of carrier such as heavy lift vessels, tugs, pontoons, supply vessel and semi-submersible vessels on the basis of voyage charter, part charter, time charter and bareboat charter for cargo up to 3500 tons per unit.
- Local knowledge particularly throughout Asia and Australia with current structures and systems firmly in place.

NMT enjoy long standing strong relationships with Asian Suppliers, Trucking Companies, Port Authorities, Stevedores, and Shipping Agents.

- Highly experienced in-house Customs Clearance team, enabling a premium total logistics service for our clients with minimal cost expenditure and maximum time efficiency. Our local staff are well versed with Department of Agriculture, Fisheries and Forestry (DAFF) schemes and can oversee all formalities for local Customs Clearance starting from correct shipping procedures and document preparation from the country of origin in accordance with the Australian Customs Service (ACS).
- Our Operational team holds current Maritime Security Identification Cards (MSIC) allowing access to any wharf situated in Australia. This ensures timely and cost effective delivery management at every stage through to the delivery at site.
- Our dedicated freight forwarding division ensures all support cargo and general commodities are handled with the personal attention NMT is renowned for.
