DROUIN MACHINING & MAINTENANCE PTY LTD

INDUSTRIES SERVED

CLEAN ENERGY

CONSTRUCTION &
ENGINEERING

DEFENCE

MANUFACTURING

MINING

OIL, GAS & ENERGY

RAIL

RETAIL, TRADE AND
OTHER SERVICES

STEEL

WATER

Company Details

Address: 313 Princes Way
Drouin VIC, 3818 Australia

Ph: +61 3 5625 3183

Fax: +61 3 5625 3143

Email: brendan.p@dmmeng.com.au

Web: www.dmmeng.com.au

ICN Gateway Company ID: 118311

Employees: 16

ABN: 31 101 705 033

Locations: 2

Local Manufacturer: Yes

Foreign Manufacturer: No

Importer: No

Exporter: No

NT CAL Accredited: No

Works in Remote Locations: Yes

Australian Indigenous Owned: No

Drouin Machining & Maintenance has been operating for 27 years. We can do large fabrication work, machining & line boring. The Industries we work with are many and varied eg: Forestry, Sand Mining, Power, water, Quarries, Abattoirs & rendering by products, Hospitals & varied small industries. Our tradesmen are our own who have done apprenticeships with us & stayed on. We have boilermakers, fitters & draftsmen. Our strongest asset is our tradesmen, their skill level & attitude to work. We have worked in all states & territories in Australia with a few jobs overseas.

The two directors have had over 35 years experience in a variety of industries. DMM is the preferred contact in the power industry for all line boring, facing & milling.

DMM has a very strong culture to "do it once and do it right ".

Summary

Drouin Machining & Maintenance has been operating for 27 years. On site robotic welding and line boring has become a key competency and the team at DMMeng have successfully performed this work throughout Australia, on a wide variety of both fixed and mobile plant and equipment.

Services include the complete overhaul of large items of plant and machinery involving safety, engineering, mechanical, structural, hydraulic and cosmetic aspects of refurbishment.

The team have over 100 years of trade experience. The expertise attained over this period includes plant maintenance, engineering services, fitting, machining, structural fabrication, heavy mechanical, in-situ machining, plant installation and onsite services.

These skills are embedded through comprehensive on the job training for all the staff at DMMeng, to both tradesmen and apprentices alike. The very fact that many of the original apprentices are still employed with DMMeng some six years after completing their training.

Description

Drouin Machining & Maintenance has been operating for 27 years. We can do large fabrication work, machining & line boring. The Industries we work with are many and varied eg: Forestry, Sand Mining, Power, water, Quarries, Abattoirs & rendering by products, Hospitals & varied small industries. Our tradesmen are our own who have done apprenticeships with us & stayed on. We have boilermakers, fitters & draftsmen. Our strongest asset is our tradesmen, their skill level & attitude to work. We have worked in all states &

territories in Australia with a few jobs overseas.

The two directors have had over 35 years experience in a variety of industries. DMM is the preferred contact in the power industry for all line boring, facing & milling. DMM has a very strong culture to "do it once and do it right".

When you employ DMM you're not getting work done you're getting commitment, quality, experience & enthusiasm

- > Thyssenkrupp Polysius Australia

Industries Served

- > Clean Energy
- > Construction & Engineering
- > Defence
- > Manufacturing
- > Mining
- > Oil, Gas & Energy
- > Rail
- > Retail, Trade and Other Services
- > Steel
- > Water

Facilities and Equipment

- > Our workshop is fitted with a 12T overhead crane, large roof space to accommodate large earth moving equipment as well as large fabrication of hoppers, conveyors & additional attachments to a variety of machines. We have NC lathe 1m bed x 290 swing, NC Mill 2.8m x 1.1 x 1.1m under spindle, 3 off Bed Lathes 2.5m centre to centre, 1 off serlindrical grinder 700 centre to centre, 380T press, 7 mig welders, 3 ID welders, 2 flange facing heads, 2 key way Mills, 1 off jernal lathe, 5 line borers.

Products & Services

- > Conveyors
- > Screen structures
- > Crusher structures
- > Chutes
- > Walkways
- > Fish Press
- > Large honing machine for the power Industry
- > Plant extensions
- > Plant upgrades
- > Plant Relocation
- > Hoppers
- > Tree pushers
- > In Situ Line boring
- > in situ facing, milling
- > Cab protectors
- > All lathe works
- > Bending & Fabrication
- > Welding
- > CNC Machining
- > Design & Drafting

Accreditations

- > AS 4801, ISO 9001, ISO 14001, OHSAS 18001

Previous Significant Projects

2019

**Dismantle, fabricate, design alter and assemble
\$500,000**

Client: Boral

TO disassemble, design, fabricate & relocate buildings for dump truck drivers, maintenance workshop, New green fields site with excavation works for dump truck parking are

2017

**Sand wash plant upgrade
\$600,000**

Client: Metro Quarry Group

Design, fabrication and installation of two screen stands, 5 conveyors, head chutes, walkways, guarding to relevant regulations

2013

**Re-design toggle assembly.
\$500,000**

Client: Holcim

Complete re-design, manufacture & installation.

2012

**Fish Press
\$1,000,000**

Client: Simplot

Complete fabrication, manufacture & assemble.

2018

**batch weigh concrete plant
\$700,000**

Client: Boral

assemble batch concrete plant from green fields site

2018

**overhaul of swing jaw crusher & platforms
\$175,000**

Client: Holcim

Design, fabricate and install of new walk ways, platforms. New motor base and alignment. On site boring of bearing housings, on site machining of fly wheels

2015

**Removal of old paper roller, soul plates,
Installation of new equipment
\$500,000**

Client: Encore Tissue

This project was run over 14 days 2 x 12hr shifts with 10 people per shift.

The removal of old equipment, soul plates(12 off), lines, electrical ect.

Alignment and height of new soul plates where with in 0.02mm. Once soul plates where set assembly and installation of new equipment from overseas including all alignments, air, water, guarding & assistance in commissioning with the engineers from Italy

2012

**Line boring bucket wheel.
\$250,000**

Client: Loy Yang Power

Dismantle, line bore around the clock.
