Australian General Engineering is a privately owned company that provides a comprehensive array of services to the metal manufacturing industry.

Summary

Australian General Engineering is an ISO 9001 accredited company that provides a comprehensive array of services to the metal manufacturing industry utilising the latest CNC technologies such as:

Laser Cutting
Turret Punching
Brake Pressing

Tube Bending
Pressing & Stamping
MIG & TIG Welding
Assembly & Fabrication
Finishing & Coating

PLEASE VISIT OUR WEBSITE www.austgen.com.au for a more comprehensive overview of our company.

Description

Australian General Engineering is a privately owned company that provides a comprehensive array of services to the metal manufacturing industry. We have benefited from generational experience that has provided Leadership, Knowledge, and Expertise. This, along with constant investment in the latest processing technology, continued development and training of staff and ISO 9001-2008 Accreditation, has established our reputation as a leader in engineering and manufacturing of metal fabricated products.

Since 1999 Australian General Engineering has been assisting their customers with the development of their products, constantly providing them with quality

manufactured goods at extremely competitive prices. It is for this reason that Australian General Engineering has been able to meet the needs of a diverse and sophisticated market with organisations such as the Department of Defence, Original Equipment vehicle and component manufacturers (OEM), and many others in the Government, Private and Public Sector.

Our successful management team come from diverse backgrounds within the industry and by bringing together their experience, expertise and capabilities, we achieve our aim to exceed our customers expectations, providing them with total confidence and customer satisfaction.

Previous Significant Projects

2019

Manufacture and Supply of Folding Aluminium Chairs
\$200,000

Client: Department of Defence

Supply of 2,000 Aluminium Folding Chairs

2016

Component Supply to Truck Industry
\$600,000

Client: Kenworth Trucks

Ongoing supply of Metal Fabricated items for assembly to Kenworth Trucks

2011

Supply and Installation of Litter Bin Surrounds
\$600,000

Client: City of Greater Dandenong

Replacement of the municipalities entire Litter Bin Surrounds. Supply and Installation.

2004

Entrenching Tool
\$6,000,000

Client: DMO

Successfully completed 10 years as supplier of specified tool

2016

Component Supply to Bus Industry
\$1,500,000

Client: Volgren

Ongoing supply of Metal Fabricated items for assembly to Volgren Busses

2016

Component Supply to Refuse Trucks
\$2,000,000

Client: Bucher Municipal (formaly MacDonald Johnston)

Ongoing supply of Metal Fabricated items and sub assemblies for Refuse (garbage) trucks and compactors

2009

Replacement of Litter Bin Surrounds
\$500,000

Client: City of Stonnington

Replacement of the municipalities entire Litter Bin Surrounds. Supply and Installation.
