Queensland and NSW Fire and Emergency Services building specialized enclosed Trailers. Various mock ups and firefighting simulators for Riklan Emergency Management Services located in Western Australia. Helimods Sunshine Coast contracted Allweld to manufacture and deliver the Life Flight mock up simulator, and a Simulator for Victoria Police both mock ups were actual size and tolerances required in aircraft manufacture.

Description

Allweld Manufacturing Pty Ltd is an established business serving companies and clients in Australia for over 24 years, building customised fabrication solutions and innovations for Government Bodies, renowned businesses and customers who appreciate high quality yet competitively priced workmanship. Our diverse business manufactures high quality products, first of type, mock up designs and Prototypes.

We have ongoing work with companies like Ergon Energy/Energex, building Truck bodies and accessories, they continue to use our design capabilities to customize solutions for their remote requirements in the field. Allweld's diverse business hub is currently contracted to a number of government and private sectors such as NSW Corrective Services building prisoner escort vehicles. Queensland and NSW Fire and Emergency Services building specialized enclosed Trailers. We have manufactured various mock ups and firefighting simulators for Riklan Emergency Management Services located in Western Australia. Helimods Sunshine Coast contracted Allweld to manufacture and deliver the Life Flight mock up simulator, and a Simulator for Victoria Police both mock ups were actual size and tolerances required in aircraft manufacture. Allweld Manufacturing has forged a name in the motorsport industry building customized designed Transporters for discerning clientele in Australia and New Zealand. Our diverse business has a marine sector, building vessels up to 12 meters.

We provide CAD, PLM and manufacturing services to individual clients including and currently to Pall Aerospace. Allweld's strengths are our people, having management and dedicated employees that can take an idea and build it into a completed project in house no matter how large or out of the box the project is.

We have managed and completed similar large projects in the past, having the skills and a great track record for delivering high quality products in a timely fashion.

Our business holds standards and accreditations for 5-S, Kanban system, Lean Manufacturing, In-house quality assurance systems and ISO: 9001 : 2015.

We hold accreditations relating to the Heavy Vehicle industry some requiring Criminal checks before being accredited, Marine survey qualified for ship building. Allweld hold current welding accreditation to AS1665 and AS1554.

Allweld's ERP system helps manage and measure quality throughout each build. The business's enterprise resource planning (ERP) system has integrated applications to manage the project processes. Allweld is continually improving and advancing our machinery, we currently have a spray Booth, a number of CNC machines and a Waterjet Cutter to achieve very high degree of build tolerances for clientele we contract to.

Allweld provides 3D CAD services with an in-house engineering/design team. Current CAD programs that Allweld utilises are SolidWorks and NX supported by Teamcentre for Product Lifecycle Management.

With the use of Siemens Teamcentre PLM (Product Lifecycle Management) software Allweld is able to maintain a high level of product configuration management to batch and serialised builds of products. This technology has gained us the ability to support an existing supplier of commonwealth military projects.

Our in-house engineering and design service also support a number of external clients which then flows through to our production to build prototypes, first of types and production builds.

Allweld Manufacturing is the product of our passion and commitment to build durable, reliable, cost-effective fabricated designs for businesses and individuals looking for excellent craftsmanship. In saying this our customers, suppliers and clients think so too, we have testimonials and support letters from approx. 80% of them.

Allweld Manufacturing and our team would like to be the company that leads you into the next phase.

Industries Served

- > Automotive
- > Manufacturing

- > Body building
- > CNC Router
- > Commercial & recreational boats
- > Commercial boats
- > Custom Race Trailers / Transporters
- > Marine engineering
- > Pipe bending
- > Plate boats
- > Pleasure boats
- > Solidworks Drafting
- > Steel boats
- > Truck bodies
- > Utility trailers
- > Welding aluminium, stainless steel, carbon alloy

Facilities and Equipment

- > Pipe bending to 2 inches and 5mm wall thickness
- > CNC x 3.6m
- > Press brake
- > Guillotine cutting
- > TIG Welding
- > Pulse & MIG welding
- > Radius pipe tube bending roller
- > Plasma cutter
- > Profast industrial fastening system
- > 4.5 tonne truck hoist
- > Solidworks Drafting services
- > CNC Router

Accreditations

- > Accreditation as a Qualified Person (QP)
- > Australian Made
- > National Heavy Vehicle Accreditation Scheme

Other Accreditations

> Certificate of Appoi

Previous Significant Projects

2019

Helimods
\$100,000

Client: Helimods

Manufacture to Helimods design, a Helicopter mock up.

2019

Prison Vans
\$2,000,000

Client: NSW Justice Department

Fitment of new manufactured inmate escort vehicle bodies to new trucks up to 16 and 8 seater.
Refurbishment of vans, refit to new bodies.

2019

Truck Bodies, Tool Boxes, Truck Accessories
\$1,500,000

Client: Energex

Supply and Manufacture Truck Bodies, Fitment of components, Tool Boxes and Truck Accessories. Supply and fitment of Winches, Towbars, Cranes and Auto Electrical wiring.

2019

Pirtek Australia
\$500,000

Client: Pirtek Australia

Manufacture canopies, 3.6m 4.3m and 4.8m. Custom design to suit each franchisee. Provide drafting services to Pirtek for each size build.

2019

Trailers, Enclosed and Partially enclosed
\$600,000

Client: QFES QLD Fire & Emergency Service

Trailers, Single and Tandem IRS Axles. Fully enclosed, Partially enclosed, Open and Canvas covered Trailers. Custom built to SES specifications. Tool boxes and accessories.

2018

Riklan Management Emergency Services
\$500,000

Client: Riklan Management Emergency Services

Custom manufacture an aeroplane simulator for there emergency services. Custom manufacture truck bodies for there fleet. Design and manufacture 4 billboard motorbike trailers.
