TFH Hire Services has grown from very humble beginnings in a backyard shed in South East Queensland, to become the largest and most successful family owned and operated temporary fencing hire company, supplying our fence and associated products Australia wide. Some two decades later, our Head Office is still located in the area and our Executive Members are still hands-on in the day to day operations of the business.

As the business has grown, so has the founding family and TFH are proud to boast 3 generations now working side by side, taking the Company from what was once a small backyard business towards an even brighter future. Throughout the years, we have expanded our operations to include fully stocked branches in every capital city and major city across Australia. We employ over 200 experienced staff many of whom, we are proud to say, have been with us for in excess of 10 years.

Summary

TFH Hire Services have become synonymous with the Australian event, construction and housing industry landscape, with more than 20 year's experience across these sectors. With a nationally recognised brand, we have expanded to a distribution network of over 40 branches Australia wide and are now the largest family owned and operated supplier of temporary fence hire and associated products in the country. Our products are manufactured to

the highest quality, exceeding safety and sanitation standards and backed by accredited engineer certification. The TFH product range is designed for maximum ease of use and versatility, with purpose-built products and accessories to meet market requirements. Our dedicated team have hands on experience and are able to offer innovative solutions, whilst making sure site safety is observed and critical deadlines are adhered to.

Description

TFH Hire Services has grown from very humble beginnings in a backyard shed in South East Queensland, to become the largest and most successful family owned and operated temporary fencing hire company, supplying our fence and associated products Australia wide. Some two decades later, our Head Office is still located in the area and our Executive Members are still hands-on in the day to day operations of the business.

As the business has grown, so has the founding family and TFH are proud to boast 3 generations now working side by side, taking the Company from what was once a small backyard business towards an even brighter future.

Throughout the years, we have expanded our operations to include fully stocked branches in every capital city and major city across Australia. We employ over 200

experienced staff many of whom, we are proud to say, have been with us for in excess of 10 years. Over 90% of our temporary fencing products and accessories are produced at the manufacturing plant dedicated to fulfilling our stock requirements. This facility allows TFH to meet supply and demand with our specialised product range as well as the unique ability to work with the manufacturer to see our own concepts come to fruition.

Our nationwide distribution network carries full stock of our extensive product range. However, what sets us apart from the crowd is our Head Office stock holdings and exceptional logistics services. This enables us to meet any shortfall in stock levels at any of our distribution facilities with a rapid turnaround time, thus ensuring our clients needs are met on time, every time.
