MPS Building and Electrical can provide resources for all building and construction works, including Builders, Civil earth workers & concreters, Cabinet makers, Electricians, Communication techs, Plumbers, Painters, Refrigeration & Air conditioning techs.

We pride our self on being self sufficient and able to respond to any situation to meet the customers needs.

We hold accreditation both quality and safety, 9001 and 4801.

We have a strong safety culture supported by a robust safety management system working to WHS standards.

---

## Summary

The strength of MPS is our ability to "Turnkey" projects from start to finish encompassing all trades, being a "one stop shop" allows for efficiencies, cost savings and consistent

management of any project.  
Our destiny is in our own hands.

---

## Description

MPS have worked on site as a contractor partner for BHP since 2006. During this time we have worked in all areas across the Mining and Processing areas at Olympic Dam. As a member of the Adhoc Services contract, MPS supply labour, equipment and services to all BHP departments. MPS have personnel inducted into all areas including the process end and mine end, both above ground and underground, The TRS, Desal plant, Bore field, camps and township. MPS have the vehicles, machinery and equipment to complete most project work without reliance on third party contracts.

MPS's strength is our experience and knowledge on site having a clear understanding of the business process and procedure at Olympic Dam. MPS have created a one stop

shop for supplying a turn key solution for site projects covering most trade areas from project start to completion. MPS also work in areas away from Olympic Dam including Prominent Hill, Carrapateena and Century mine sites as well as DTPI projects at Coober Pedy and Roxby Downs Schools. MPS also have other services/maintenance contracts with Woolworths.

MPS have a large team with a strong management structure to support the team. This structure has been developed over the last 14 years and is proven to get the best results while executing any project, big or small. MPS have project managers and project engineers ready to assist with tendering your next project or can develop a scope of work for your project that can be put out to tender.

## Associations

- > NECA
- > Master Builders

---

## Products & Services

- > Building Works
- > Electrical / Comm's & Data
- > Civil Earth Works
- > Civil Construction
- > Plumbing
- > Refrigeration / Air conditioning

---

## Accreditations

- > ISO 9001 : 2015
- > ISO 45001 : 2018

## Industries Served
