Wescott Coatings are a traditional industrial fabric maintenance services company, as well as a multi - disciplined Rope Access service provider. Our Management & Supervision team have substantial industry experience and we are extremely well positioned to offer our services with absolute confidence that we can meet your needs and expectations without compromise due to our impressive track record of delivery on similar type projects.

Wescott have currently completed over 900,000 productive hours LTI free as of 31 December 2017, which is absolute testimony to the focus we have in installing and promoting the right safety culture throughout our business. This culture is heavily imbedded in our personnel on site and management supporting the operations. Our ethos is simple "Safety and Quality first, Productivity and Results will follow".

Summary

Wescott Industrial Services Australia are a traditional industrial fabric maintenance services company, as well as a multi - disciplined Rope Access service provider. Our Management & Supervision team have substantial industry experience and we are extremely well positioned to offer our services with absolute confidence that we can meet your needs and expectations without compromise due to our impressive track record of delivery on similar type projects.

Wescott have currently completed over 900,000 productive hours LTI free as of 31 December 2017, which is absolute testimony to the focus we have in installing and promoting the right safety culture throughout our business. This culture is heavily imbedded in our personnel on site and management supporting the operations. Our ethos is simple "Safety and Quality first, Productivity and Results will follow".

Services:

All types of surface preparation
 Coating, Painting, PFP and TSA application
 Insulation and cladding
 Insulation Inspection
 Industrial Cleaning
 Composite Repairs, high level / low level
 Rope Access / Rigging / Advanced Rescues
 Suspended Access Platforms / Netting
 Mechanical Services
 Electrical Services
 Specialist Cleaning & Work at Height
 Coating Condition and the Management of data historical, present and predictive
 Asset Integrity Risk Based Inspection and NDT
 Drone Surveys

Innovative Products:

Mascoat - Composite Ceramic Insulation Coatings
 V-Deck - Suspended Decking Platform
 Eco-Blast - Vapour Blasting
 Scaffold Containment / Encapsulation
 Humidur - Solvent Free Epoxy Paint, Cures Under Water
 Belzona Super Wrap - Ideal for Composite Steel Repairs / Mechanical Rotary Repairs
 XForce HD - Heavy Duty Cordless Airless Spray

Wescott are fully accredited by IRATA (Industrial Rope Access Trade Association) and can provide rope access technicians with varying discipline experience for both onshore and offshore project requirements, in the UK and Internationally.

Wescott are fully committed to offering our clients excellent service and contracting options when it comes to delivering our work scopes. We are fully committed to ensuring Budget Control is adhered to and that our clients receive value for money by offering fixed prices for defined scopes and transparent and fair contract models which ensure risk is distributed fairly between both parties to deliver the best possible service.

Wescott are committed to delivering a service with quality standards, safe solutions, while continuously maintaining an effective QHSE Management System with accreditations from:

OHSAS 18001: 2007
 ISO 14001: 2004
 ISO 9001: 2008 and the National Highway Sector Scheme 19A
 Achilles Power & Tech, FPAL, UVDB and RISQS

Marine:

Our marine service offerings comprise of project management, supervision, inspection, surface preparation, all types of coating application, scaffolding and rope access, general and specialised cleaning.
 With over three decades of Marine experience at the highest level contained within our organisation, Wescott coatings and training services are fully attuned with the diverse demands the marine sector generates and we are equally diverse and capable of adapting very quickly to ensure we meet the needs of our clients safely, quickly and efficiently.

Our senior experienced management team have an extensive track record in the successful delivery of multi disciplined services throughout the UK marine sector.

Offshore Maintenance:

Our operatives specialise in blasting & painting, coatings inspection and surveys and rope access on and offshore internationally. Working closely with carefully selected partner companies coupled with the experience and impeccable safety record, our operatives are able to offer a first class service safely and consistently to the highest standards. Together we can provide rope access teams which include highly experienced NACE and ICorr coatings inspectors allowing a comprehensive assessment of any structure made quickly, efficiently and most importantly without the need for costly scaffolding.

Our field team are a minimum of ICorr/NACE level 2 and can be supervised by an NACE Level 3 Inspector if required by the client. The following surveys can all be carried out via rope access by highly experienced inspectors. Coating, Paint Inspection & Surveys, Blasting &

Passive Fire Protection (PFP), Paint Analysis & Environmental Testing

Advancements in industrial paints and more stringent preparation standards have meant that painting has become a much more skilled operation.

Previous Significant Projects

2017

Borwin Alpha Transformer Platform
\$4,000,000

Client: ABB/TenneT

Offshore Fabric Maintenance
Painting, Blasting, Scaffold, Rope access, WEB Deck
installation, M&E, Inspection, Project Management, Logistics,
Procurement

2015

Beartrice Semi-Submersible
\$100,000

Client: Woodgroup

Offshore Fabric Maintenance.
Painting, Blasting, Scaffold, Rope access, Insulation

2015

Cygnus Bravo
\$2,500,000

Client: Woodgroup

Onshore New Build.
The project included all forms of Fabric Maintenance.
Painting, Blasting, Scaffold, Rope access, Insulation,
specialist cleaning.

2014

Hummingbird FPSO
\$600,000

Client: Woodgroup

Offshore Fabric Maintenance
Painting, Blasting, Scaffold, Rope access, Insulation,
composite wrap repairs

2017

DolWin Alpha Transformer Platform
\$10,000,000

Client: ABB/TenneT

Offshore Fabric Maintenance
Painting, Blasting, Scaffold, Rope access, WEB Deck
installation, M&E, Inspection, Project Management, Logistic,
Procurement

2015

Braefoot Bay Jetty
\$200,000

Client: Woodgroup

Offshore Fabric Maintenance.
Painting, Blasting, Scaffold, Rope access, Insulation, CUI
remediation, composite wrap repairs.

2015

MOD Naval Base
\$6,500,000

Client: Actavo/Babcock

Onshore Fabric Maintenance.
Painting, Blasting, Scaffolding Supervision/Inspection
Project Management
