Koodaideri Project – Phase 1

- Project Overview:** The Koodaideri Project (Project), consists of the development of a new iron ore mine located approximately 110km west-northwest of Newman in the Pilbara Region and associated rail infrastructure which extends from the Koodaideri mine to Rio Tinto's existing rail network at Lyre.
- The mine will include dry crushing and screening plant, non-process infrastructure, product stockyards, rail loop and load-out and rail link to Rio Tinto's main rail line.
- Package Title:** Isolation Gates
- Package Reference:** KD1/M/SM/2630
- Package Description:** The scope of work is to design, manufacture, shop test, pre-assemble, pack and transport the below listed equipment to site:
- Two (2) isolation gates to suit secondary crusher feed bin, with internal opening dimensions 2.8 m (w) x 8.0m (L).
 - Two (2) isolation gates to suit secondary crusher discharge chute, with internal opening dimensions 0.9m (w) x 2.3m (L).
 - Seven (7) isolation gates to suit product screen feed bin, with internal opening dimensions 2.72m (w) x 1.65m (L).
 - One (1) HPU, capable of operating eight isolation gates.
 - Local operating stations, hydraulic hoses, fixed stainless steel piping, connectors, fixtures and fittings between the hydraulic power unit and the isolation gates; and
 - associated tools and spares.
- The scope also includes provision of construction supervision, commissioning assistance, acceptance testing assistance and training of site personnel.
- Specific Scope Requirements:** Suppliers wishing to be considered must be able to demonstrate their ability to complete the following tasks:
- Design, manufacture and supply Isolation gates with maximum design capacity of 3600 tph for primary crushed iron ore, with max lump size of 300mm;
 - demonstrate that the scope can be delivered to the highest standards of health and safety, with zero harm to people and environment;
 - demonstrate experience of successful completion of similar projects;
 - demonstrate that the design capability, for selection of equipment will meet the requirements listed in project documentation;
 - demonstrate manufacturing capacity and capability to achieve Project schedule requirements;
 - demonstrate that the equipment supplied will be of high quality and standards that meet or exceed the Project quality

Expression of Interest

requirements and specifications.

Forecast Award Date: March 2019

Package-Specific Criteria: Ability to design and supply the equipment to the design data as specified in the equipment datasheets, technical specification, scope of work and other requirements stated in contract documentation.

Generic Pre-Qualification Requirements: As per (draft) Selection Criteria

Expression of Interest: Suppliers and contractors are invited to express an interest in this scope of work by registering on the ICN Gateway online platform. Please ensure;

- The Company profile on ICN Gateway is complete, up-to-date and accurate;
- Interest is registered as full-scope or partial-scope supplier (where applicable); and
- Responses to the generic pre-qualification criteria (questions) via the ICN Gateway, is provided.

EOI Commencement Date: 27 September 2018

EOI Closing Date: 15 October 2018
