

CHEVRON AUSTRALIA – OPERATIONS

TITLE: Engineering Services (R-23703)

****Contract Award Information****

Contract Number	Contractor	Description
C1629124	Atkins Australasia	Reliability and Integrity Engineering Services

DESCRIPTION:

Chevron Australia is seeking expressions of interest from service providers able to provide engineering services in support of Barrow Island Joint Venture (BWIJV – WA Oil and Thevenard Island) facilities.

Contractor shall provide multi-discipline professional engineering and design services including Asset Integrity Management services and Brownfield Modifications Engineering Support.

The Asset Integrity Management scope will principally involve use of Chevron Integrity Management Software as well as Chevron CMMS and will include the following activities:

- (1) Damage Loop Review
- (2) Inspection Scoping and Workpack Preparation
- (3) Inspection Management - resolve queries arising from site NDT
- (4) Work Order Management
- (5) Inspection Report QA/QC and Recording
- (6) Anomaly Management and Fitness For Service Assessments
- (7) Risk Based Assessments of piping, tanks & vessels, PSVs, valves, wellhead components, etc.

Further requirement for engineering services may arise from the need to execute Brownfield modifications, maintenance and improvement scopes to the asset as identified within the Chevron's annual business plan including but not limited to the following activities:

- (1) Feasibility Studies and Concept Development
- (2) Detailed Design
- (3) Analysis of Technical Issues in various disciplines – primarily Piping and Pipelines, Mechanical, Process, E&I, Civil.
- (4) Fabrication Assurance
- (5) Technical Information Management
- (6) Drafting Services
- (7) Embedded personnel
- (8) Third Party Services
- (9) Cost Review and Estimating
- (10) Project Management

For the purposes of this EOI, Brownfield execution services and NDT services will not be included in scope. Other Chevron sites including Gorgon and Wheatstone are excluded.
