

BALLA BALLA INFRASTRUCTURE PROJECT

TITLE: **BBIG Corporate Intranet**

SCOPE PREQUALIFICATION REQUIREMENTS

- Respondent's solution must be based on Microsoft Office365 SharePoint Online technology
- If a SaaS (Software as a Service) solution included, the respondent must hold and provide ISO 27001 certification and/or equivalent certifying reports (SSAE16/18, SOC II, etc)
- Respondent's solution and pricing must have the capability to scale with the size of the organization.

STANDARDS

- N/A

DESCRIPTION:

1.0 Scope of Work included:

BBIG require a SharePoint-based intranet-in-a-box solution, inclusive of implementation, training and advisory services, for an install base of approximately 35 users.

Implementation services include, but are not limited to, the following:

- Discovery workshops to finalise an agreed design for the new intranet
- Configuration, setup, testing and release of the agreed intranet design

Advisory services include, but are not limited to, the following:

- Best practice in creation and development of a hub and team sites framework
- Best practice in development of a Microsoft SharePoint structure and theme
- Best practice processes and procedures for ongoing maintenance of solution

2.0 Scope of Work not included:

The Supplier shall not be responsible for Microsoft SharePoint licensing or end user training.
