

Expression of Interest

Koodaideri Project – Phase 1

Project Overview: The Koodaideri Project (Project), consists of the development of a new iron ore mine located approximately 110km west-northwest of Newman in the Pilbara Region and associated rail infrastructure which extends from the Koodaideri mine to Rio Tinto's existing rail network at Lyre.

The mine will include dry crushing and screening plant, non-process infrastructure, product stockyards, rail loop and load-out and rail link to Rio Tinto's main rail line.

Package Title: 33 kV Overhead Lines

Package Reference: KD1/E/CC/1617

Package Description: The scope of work is for the design, procurement, fabrication, manufacture, construction and testing of the 33 kV overhead lines for the Koodaideri mine 33 kV distribution network, including the following main components:

- poles and wires;
- OPGW;
- air break switches;
- drop out fuses;
- reclosers;
- earthing; and
- all earthwork and civil works.

Please note 33kV cables within the mine distribution 33 kV network are not part of the scope for this package.

Specific Scope Requirements: Contractors wishing to be considered must be able to demonstrate their ability to complete the following tasks:

- ensure the scope can be delivered in full and to the highest standards of health and safety, with zero harm to people and environment;
- demonstrate the successful completion of similar projects on a full turn-key basis;
- demonstrate extensive experience and capability in the design, procurement, fabrication, construction and testing of overhead power lines at voltage level of 33 kV and above;
- demonstrate procurement and fabrication capabilities to meet Project quality and programme requirements;
- demonstrate project management, quality control and engineering capabilities to meet all deliverable requirements;
- familiarity with and the ability to fully comply with the technical requirements of RTIO specifications;
- familiarity with and the ability to fully comply with RTIO site and operation requirements;
- demonstrate experience and familiarity with working in a remote resource environment, especially in the Pilbara region of Western

Expression of Interest

- Australia; and
- demonstrate ability to provide spares and after sales service support.

Forecast Award Date: August 2019

Package-Specific Criteria: Ability to design, supply and construct 33 kV Overhead Line for the Project to the design data as specified in the technical specification, scope of work and other requirements stated in contract documentation.

Generic Pre-Qualification Requirements: As per (draft) Selection Criteria

Expression of Interest: Suppliers and contractors are invited to express an interest in this scope of work by registering on the ICN Gateway online platform. Please ensure;

- The company profile on ICN Gateway is complete, up-to-date and accurate.
- Interest is registered as full-scope or partial-scope supplier (where applicable).
- Responses to the generic pre-qualification criteria (questions) via the ICN Gateway, is provided.

EOI Commencement Date: 5 March 2019

EOI Closing Date: 2 April 2019
