ICN Gateway

- Pivotal link between major project requirements and suppliers
- ~70,000 profiles
- ~12,000 public searches/month
- ~\$400 billion in projects

Industry Capability Network South Australia

The screenshot displays the ICN Gateway website interface. At the top, there is a navigation bar with the logo, 'PRICING', 'WHY ICN?', 'SEARCH', 'CONTACT', and a 'MY PROFILE' button. Below the navigation bar is a hero image of two construction workers in hard hats and safety vests, with the text 'Join the networking platform that's helping Australian business grow.' and a 'UPGRADE NOW' button.

The main content area is divided into two sections. The left section is titled 'PROJECT ALERT' and features a notification bell icon. It includes a greeting from 'Hi Bettina Venner' and a message: 'We have listed the following new opportunities on ICN Gateway that may interest you.' Below this, there is a 'New projects' section with a link to view project details and a note that 'Work packages in red have changed.' A table lists project details for the 'North-South Corridor, Northern Connector Project - Lendlease'.

The right section is titled 'What is ICN?' and explains that ICN helps bring Australian suppliers and project owners together. It includes a 'UPGRADE NOW' button. Below this, there are two search sections: 'Looking for suppliers?' and 'Looking for work?'. Both sections include dropdown menus for state and region, a text input for keywords, and a search button.

Osborne Naval Shipbuilding Precinct (Future Subs Program) Infrastructure Development

- Locations:** SA Australia
- Project Value:** TBC
- Project Status:** Design Phase
- Project Owner:** Laing O'Rourke Australia Construction Pty Ltd

Project Details

The Osborne Naval Shipbuilding Precinct (Future Submarine Program) (ONSPFSP) Infrastructure Development will provide the necessary build, test, and integration facilities (BTIF) to design, produce and accept into service a fleet of future submarines (FSM). The project is part of the Commonwealth Government's Naval Shipbuilding Plan announced in May 2017 which sets out the strategic approach to building a long-term, sustainable naval shipbuilding and ship sustainment capability in Australia.

Laing O'Rourke has been awarded the Managing Contractor role for this large scale project and is now requesting Registrations of Interest (ROI) from trade subcontractors interested in participating in this exciting South Australian Project. Delivery Phase works are scheduled to commence in Q1 2019 and be completed in 2026.

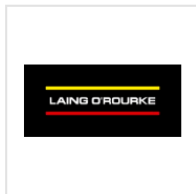

The proposed scope of works includes the following:

New building works include:

- Production Workshops
- Platform Land Based Test Facility (PLBTF)
- Combat System Physical Integration Facility (CSPIF)
- Paint workshops
- Raft workshop
- Warehousing
- Wharf support buildings
- Shipyard maintenance and utility building
- Canteen and amenities
- FSP building
- On-grade car park and pedestrian bridge over rail

Civil and marine infrastructure includes:

- Piling, bulk earthworks, roads, aprons and hardstands
- Wharf upgrades/extensions
- Power, water, electrical, security and communications infrastructure.

Understand the EOI Process

How ICN connects suppliers to opportunities

- Submit an EOI for a work package
- Client enquiries – we interrogate the ICN database to find the best suppliers
 - Use Key Words!
- Buyer searches on ICN Gateway
 - Note: paid subscriptions will show in a public search – priority listing for Premium subscribers
- Industry briefings – submit EOI for ‘general updates’ to be included in the mailing list
- ICN complements your other BD activities

Skilling South Australia

- Support industry to increase number of trainees and apprentices
- Bespoke projects from industry designed to address identified recruitment and training needs
- Network of advisors to provide guidance and support
