|-------------------------|--|
| PROJECT OVERVIEW | Perdaman Chemicals and Fertilisers are focused on the development of the world's largest stream urea plant with a production capacity of 2 MTPA. The plant is located within the Burrup Strategic Industrial Area, Burrup Peninsula, approximately 10km from Dampier and 20km north-west of Karratha on the north west coastline of Western Australia. The development will utilise local natural gas for fertiliser production, using innovative and low-emissions technologies and will be Australia's first Urea Export Project generating Export Revenue of US\$ 800 Million/year. The facility will consist of a Syngas Production Block, Fertiliser Production Block and Offsite Facilities and Utilities. |
| PACKAGE TITLE: | Gas Detector |
| PACKAGE NO: | P7925 |
| SCOPE: | <p>Scope for the package comprises of supply of Gas Detector associated with the Urea Plant.</p> <p>The supplier is expected to provide all labour, engineering services, supervision, equipment, material, consumables and other incidentals necessary to design, fabricate, paint, assemble, inspect and test.</p> <p>The scope covers supply of;</p> <ul style="list-style-type: none"> *O₂ Gas Detector *CO Gas Detector *NH₃ Gas Detector *Combustible Gas Detector *Hydrogen Gas Detector *H/C Gas Detector Open Path Beam (Infra-Red) *Beacon *Sounder |
