

<b>PROJECT OVERVIEW</b>	Perdaman Chemicals and Fertilisers are focused on the development of the world's largest stream urea plant with a production capacity of 2 MTPA. The plant is located within the Burrup Strategic Industrial Area, Burrup Peninsula, approximately 10km from Dampier and 20km north-west of Karratha on the north west coastline of Western Australia. The development will utilise local natural gas for fertiliser production, using innovative and low-emissions technologies and will be Australia's first Urea Export Project generating Export Revenue of US\$ 800 Million/year. The facility will consist of a Syngas Production Block, Fertiliser Production Block and Offsite Facilities and Utilities.
<b>PACKAGE TITLE:</b>	Flow Nozzles plus orifice plates / flanges
<b>PACKAGE NO:</b>	P8339
<b>SCOPE:</b>	<p>The supplier is expected to provide all labour, engineering services, supervision, equipment, material, consumables and other incidentals necessary to design, fabricate, paint, assemble, inspect and test.</p> <p>The scope covers supply of;</p> <p><i>*Flow Nozzle (AISI type 316 Stainless Steel)</i></p> <p><i>*Orifice Plates/Flanges (rated at a min ASME Class 300)</i></p>
