

PROJECT OVERVIEW	Perdaman Chemicals and Fertilisers are focused on the development of the world's largest stream urea plant with a production capacity of 2 MTPA. The plant is located within the Burrup Strategic Industrial Area, Burrup Peninsula, approximately 10km from Dampier and 20km north-west of Karratha on the north west coastline of Western Australia. The development will utilise local natural gas for fertiliser production, using innovative and low-emissions technologies and will be Australia's first Urea Export Project generating Export Revenue of US\$ 800 Million/year. The facility will consist of a Syngas Production Block, Fertiliser Production Block and Offsite Facilities and Utilities.
PACKAGE TITLE:	Pressure Gauges & Temperature Gauges, Level Gauges, Displacement Type Level Transmitters, Level Switches, Automatic Tank Gauges, Radar Type Level Instruments, Radioactive Type Level Instruments
PACKAGE NO:	P8361
SCOPE:	<p>The supplier is expected to provide all labour, engineering services, supervision, equipment, material, consumables and other incidentals necessary to design, fabricate, paint, assemble, inspect and test.</p> <p>The scope covers supply of;</p> <ul style="list-style-type: none"> *Pressure, Temperature & Level Gauges *Displacement Type Level Transmitters & Level Switches *Automatic Tank Gauges *Radar Type Level Instruments *Radioactive Type Level Instruments
