

PROJECT OVERVIEW	Perdaman Chemicals and Fertilisers are focused on the development of the world's largest stream urea plant with a production capacity of 2 MTPA. The plant is located within the Burrup Strategic Industrial Area, Burrup Peninsula, approximately 10km from Dampier and 20km north-west of Karratha on the north west coastline of Western Australia. The development will utilise local natural gas for fertiliser production, using innovative and low-emissions technologies and will be Australia's first Urea Export Project generating Export Revenue of US\$ 800 Million/year. The facility will consist of a Syngas Production Block, Fertiliser Production Block and Offsite Facilities and Utilities.										
PACKAGE TITLE:	CPI OIL SEPARATOR										
PACKAGE NO:	P5676										
SCOPE:	<p>Scope for the package comprises the supply of the CPI Oil Separator for effective removal of oil from the water as per the below design requirements.</p> <table border="1" data-bbox="467 976 1136 1165"> <tr> <td>Type</td> <td>*cylinder</td> </tr> <tr> <td>Capacity</td> <td>*50 m3</td> </tr> <tr> <td>Design Pressure</td> <td>*Full water / -</td> </tr> <tr> <td>Design Temperature (C)</td> <td>*75</td> </tr> <tr> <td>MOC</td> <td>*CS</td> </tr> </table>	Type	*cylinder	Capacity	*50 m3	Design Pressure	*Full water / -	Design Temperature (C)	*75	MOC	*CS
Type	*cylinder										
Capacity	*50 m3										
Design Pressure	*Full water / -										
Design Temperature (C)	*75										
MOC	*CS
