

<b>PROJECT OVERVIEW</b>	Perdaman Chemicals and Fertilisers are focused on the development of the world's largest stream urea plant with a production capacity of 2 MTPA. The plant is located within the Burrup Strategic Industrial Area, Burrup Peninsula, approximately 10km from Dampier and 20km north-west of Karratha on the north west coastline of Western Australia. The development will utilise local natural gas for fertiliser production, using innovative and low-emissions technologies and will be Australia's first Urea Export Project generating Export Revenue of US\$ 800 Million/year. The facility will consist of a Syngas Production Block, Fertiliser Production Block and Offsite Facilities and Utilities.
<b>PACKAGE TITLE:</b>	Exotic & SS Pipe and Fittings
<b>PACKAGE NO:</b>	P6310
<b>SCOPE:</b>	<p>Scope of this package comprises of all Exotic &amp; SS Pipe and Fittings required for the Urea Process Plant.</p> <p>All piping shall be fabricated in compliance with the indicated ASTM and API standards for furnishing, permissible fabrication variations and minimum testing requirements.</p> <p>The scope covers fabrication of:</p> <ul style="list-style-type: none"> <li>*Stainless Steel – Temperature ranges -46°C to -200°C</li> <li>*Chrome Alloys or Stainless Steel – Temperature ranges over 427°C</li> </ul>
