

<p><b>Project Overview:</b></p>	<p>Perdaman Chemicals and Fertilisers are focused on the development of the world's largest stream urea plant with a production capacity of 2 MTPA. The plant is located within the Burrup Strategic Industrial Area, Burrup Peninsula, approximately 10km from Dampier and 20km north-west of Karratha on the north west coastline of Western Australia. The development will utilise local natural gas for fertiliser production, using innovative and low-emissions technologies and will be Australia's first Urea Export Project generating Export Revenue of US\$ 800 Million/year. The facility will consist of a Syngas Production Block, Fertiliser Production Block and Offsite Facilities and Utilities.</p>
<p><b>Package Title:</b></p>	<p>Temporary Facilities – supply and installation</p>
<p><b>Package No.:</b></p>	<p>T9461</p>
<p><b>Scope:</b></p>	<p>SNC Lavalin is seeking Expressions of Interest from Service providers for the provision of supply and installation of temporary site based;</p> <ul style="list-style-type: none"> <li>- Offices and training rooms (inclusive of furniture, power and data points);</li> <li>- Crib Huts;</li> <li>- Ablution Facilities (inclusive of all plumbing and water connections); and</li> <li>- Medical, Fire &amp; Security facility</li> </ul>
