### Project Overview:
Perdaman Chemicals and Fertilisers are focused on the development of the world’s largest stream urea plant with a production capacity of 2 MTPA. The plant is located within the Burrup Strategic Industrial Area, Burrup Peninsula, approximately 10km from Dampier and 20km north-west of Karratha on the north west coastline of Western Australia. The development will utilise local natural gas for fertiliser production, using innovative and low-emissions technologies and will be Australia’s first Urea Export Project generating Export Revenue of US$ 800 Million/year. The facility will consist of a Syngas Production Block, Fertiliser Production Block and Offsite Facilities and Utilities.

### Package Title:
Non Destructive and Post Weld Heat Treatment Testing

### Package No.:
S6185

### Scope:
SNC Lavalin is seeking Expressions of Interest from Subcontractor for the Provision of NDT and PWHT inspection services. The services will include;
- NDT and PWHT both on and Offsite Inspection and testing services.
