

Project Overview:	<p>IB Operations Pty Ltd (IB Operations), as agent for the joint venture between FMG Magnetite Pty Ltd and Formosa Steel IB Pty Ltd, is developing a new magnetite mine and associated infrastructure at its Iron Bridge site (Iron Bridge Magnetite Project).</p> <p>The Iron Bridge site comprises the North Star, Eastern Limb, Glacier Valley and West Star magnetite iron ore deposits located in the Pilbara region of Western Australia.</p> <p>The Iron Bridge Magnetite Project will include the execution of a process plant, non-process infrastructure, slurry and return water pipelines, a raw water pipeline and port infrastructure to support 22 wmtpa production.</p> <p>Delivery of first ore is expected in the first half of calendar year 2022.</p>
Package Title:	Vibrating Feeders
Reference:	662NSP2011
Package Description:	<p>At the time of publishing this invitation to register an interest, the Supply includes the design, manufacture, assembly, factory testing, packaging for transport and loading onto transport of Vibrating Feeders for the Ore Processing Facility, including:</p> <ul style="list-style-type: none"> - duty: <ul style="list-style-type: none"> o 12 off Vibrating Feeder with 3110 tph (dry) throughput to feed the Air Classifiers; o 10 off Vibrating Feeder with 2000 tph (dry) throughput to feed the Dry Screens; o 20 off Vibrating Feeder with 500 tph (dry) throughput to feed the DMS; o 20 off Vibrating Feeder with 100 tph (dry) throughput to feed the DMS rejects; - complete with Feed box, isolation frames, shock absorbers, springs, drive assembly, vibrating exciters, dust covers and liners; and - complete with all ancillary items of material and equipment required for completion of the supply, such as all, shims, gaskets, nuts, bolts and washers, special tools for assembly and erection. <p>Australian Standards apply to this package 662NSP2011 Vibrating Feeders.</p> <p>The Iron Bridge Magnetite Project, including this package 662NSP2011 Vibrating Feeders is subject to internal approvals. The procurement process or scope, may change at the IB Operations' election, including to accommodate project budget and time requirements.</p>
Expression of Interest (EOI):	<p>IB Operations invites expressions of interest (EOI) from capable and experienced contractors and suppliers, who are safety focused and price competitive for this package 662NSP2011 Vibrating Feeders.</p> <p>Interested parties must register an EOI on the ironbridge.icn.org.au</p> <p>Registrants are required to provide the following information as part of its EOI:</p> <ol style="list-style-type: none"> a. an ICN Gateway company profile, current in all material respects; and b. completed Preliminary Prequalification Information.

IRON BRIDGE MAGNETITE PROJECT
PACKAGE 662NSP2011 – VIBRATING FEEDERS
SCOPE OF WORK

	IB Operations will use the EOIs to improve its understanding of market capability and interest. Suitable Registrants may be invited to submit a tender for this package 662NSP2011 Vibrating Feeders.
EOI Closing Date:	9 September 2019
Target Award Date:	At the time of publishing this invitation to register an EOI, December 2019
Project Contact Officer:	All communications in connection with this invitation to register an EOI for this package 662NSP2011 Vibrating Feeders including clarification regarding this package 662NSP2011 Vibrating Feeders or request for technical support in connection with the EOI or ICN Gateway, must be submitted to: Linus O’Brien, Principal Supply Chain Consultant Industry Capability Network of Western Australia T: (08) 9365 7556 E: Linus.OBrien@icnwa.org.au
Project URL’s:	Details of additional Iron Bridge Magnetite Project opportunities will be published on the ICN Gateway at ironbridge.icn.org.au
Disclaimer:	The information contained in this invitation to register an EOI is indicative only and subject to change at IB Operations’ discretion. It is intended to provide a brief outline of the relevant Supply which may be required on the Iron Bridge Magnetite Project and should be read in conjunction with the Iron Bridge Project Description on the ICN Gateway.
