

Anglo American – Aquila Project  
Expression of Interest (EOI)  
**UME005 - Longwall Hydraulic Pump Station**

### **General Description**

The objective of the Aquila Project (the Project) is to convert the previous Aquila bord and pillar mine, located at the Capcoal mining complex in Central Queensland's Bowen Basin, to a longwall operation.

The scope of the Project includes:

- Modification of existing Grasstree development system to support longwall operations;
- Modification of existing Grasstree mobile equipment fleet;
- Removal, modification and replacement of existing underground conveyor system;
- Construction of a surface material handling system; and
- Limited upgrade to the site services, including electrical, controls and water systems to support the new longwall operations.

### **Expressions of Interest**

Anglo American encourages local businesses interested in Longwall Hydraulic Pump Station to register an expression of interest (EOI) through the ICN Gateway webpage.

### **Specific Scope Requirements**

The scope of work may include:

- Overhaul of 2 x Longwall Pump Stations ex-Grasstree Mine for use at Aquila Mine
- Modify the pump stations to suit reduced roadway height at Aquila
- Ensure pumps can meet longwall duty requirements at Aquila

**Forecast Award Date:** Q3 2020

**Delivery Schedule:** It is anticipated that these works will commence Q1 2021

### **Disclaimer**

The scope of work is indicative only and is intended to be used as a summary description of work which may be required by Anglo American and may be subject to change. Full scopes of work will be made available to parties that are invited to tender. There is no undertaking to contract or proceed to a competitive process implied by this form. Further contact with interested suppliers will be at Anglo American's discretion.
