

Anglo American – Aquila Project

Expression of Interest (EOI)

UME007 - LHD's and Grader Overhaul

General Description

The objective of the Aquila Project (the Project) is to convert the previous Aquila bord and pillar mine, located at the Capcoal mining complex in Central Queensland's Bowen Basin, to a longwall operation.

The scope of the Project includes:

- Modification of existing Grasstree development system to support longwall operations;
- Modification of existing Grasstree mobile equipment fleet;
- Removal, modification and replacement of existing underground conveyor system;
- Construction of a surface material handling system; and
- Limited upgrade to the site services, including electrical, controls and water systems to support the new longwall operations.

Expressions of Interest

Anglo American encourages local businesses interested in LHD's and Grader Overhaul to register an expression of interest (EOI) through the ICN Gateway webpage.

Specific Scope Requirements

The scope of work may include:

- Overhaul of 11 ex-Grasstree LHD's (various sizes)
- Modify LHD's to suit reduced roadway height at Aquila
- Overhaul of grader ex-Grasstree Mine
- Modify grader to suit reduced roadway height at Aquila

Forecast Award Date: Q1 2020

Delivery Schedule: It is anticipated that these works will commence Q2 2020

Disclaimer

The scope of work is indicative only and is intended to be used as a summary description of work which may be required by Anglo American and may be subject to change. Full scopes of work will be made available to parties that are invited to tender. There is no undertaking to contract or proceed to a competitive process implied by this form. Further contact with interested suppliers will be at Anglo American's discretion.
