

Anglo American – Aquila Project
Expression of Interest (EOI)
**US004 - Communications – IS Telephone and
Intercom System**

General Description

The objective of the Aquila Project (the Project) is to convert the previous Aquila bord and pillar mine, located at the Capcoal mining complex in Central Queensland's Bowen Basin, to a longwall operation.

The scope of the Project includes:

- Modification of existing Grasstree development system to support longwall operations;
- Modification of existing Grasstree mobile equipment fleet;
- Removal, modification and replacement of existing underground conveyor system;
- Construction of a surface material handling system; and
- Limited upgrade to the site services, including electrical, controls and water systems to support the new longwall operations.

Expressions of Interest

Anglo American encourages local businesses interested in Voice Communications – IS Telephone and Intercom System to register an expression of interest (EOI) through the ICN Gateway webpage.

Specific Scope Requirements

The scope of work may include:

- Supply of an IS Mobile telephone system for individual use
- Supply of a static IS telephone system with handsets, cables and exchange
- Supply of an intercom for underground use along key roadways and workplaces with connection to surface Control Room

Forecast Award Date: Q4 2019

Delivery Schedule: It is anticipated that these works will commence Q4 2019

Disclaimer

The scope of work is indicative only and is intended to be used as a summary description of work which may be required by Anglo American and may be subject to change. Full scopes of work will be made available to parties that are invited to tender. There is no undertaking to contract or proceed to a competitive process implied by this form. Further contact with interested suppliers will be at Anglo American's discretion.
