

Queensland Government COVID-19 (Coronavirus) Manufacturing Supply Chain support

Face masks for non-medical purposes

General Description

The Queensland Government is working to connect businesses across industries with suppliers of essential supplies to continue operations. We have several requests for disposable face masks of various types for non-medical purposes, with additional requests expected to follow.

Suppliers who respond here should indicate their:

- immediate capacity and quantity that can be supplied
- immediate timeframes for production and delivery
- any capabilities needed to scale up their capacity, quantities and by what timeframes.

Expressions of Interest

The Queensland Government encourages local businesses interested in supplying disposable face masks of various types for non-medical purposes to register an expression of interest (EOI) through the ICN Gateway webpage.

Technical Information for Potential Suppliers

As per the table below outlining the required standards for the various product types, the Australian Standard AS1716:2012 is required for P1, P2 and P3 particulate filter respirator face masks for non-medical purposes.

N95, N99 and N100 particulate filter respirator face masks for non-medical purposes are required to be certified by the U.S.A. National Institute for Occupational Safety and Health (NIOSH).

Product	Standard
Single Use Non-medical Certified Particulate Filter Respirator Face Masks	
Particulate Filter Respirator Face Masks P1, P2, P3	AS1716:2012
Particulate Filter Respirator Face Masks N95, N99, N100	Certified by USA National Institute for Occupational Safety and Health (NIOSH) 42 CFR 84

Specific Scope Requirements

As at 15 April 2020, we have the following various requests, with further requests for face masks for non-medical purposes likely to follow:

- 40 P2 disposable respirators sized medium required immediately and ongoing monthly
- 40 P2 disposable respirators sized large required immediately and ongoing monthly
- 60 full face respirators required immediately and ongoing monthly
- 1,800 face masks suitable for food service immediately and every 3 months
- 2,000 disposable N95 face masks required immediately and ongoing fortnightly
- 50,000 disposable 3 layer surgical face masks for non-medical purposes required from the end of May 2020
- 50,000 disposable P2 face masks required from the end of May 2020
- 3M aura particulate respirator 9320A+ (P2 or equivalent) suitable for use in the building and construction industry due to potential silica dust
- Sundstrom sr100 silicon half face masks suitable for use in the building and construction industry due to potential silica dust
- half or full-face masks with respirator/P2 filters suitable for use in local government operational services due to dust/asbestos.

If you are able to provide other disposable face masks for non-medical purposes, please express your interest in supplying for this market.
