

Title: IT Equipment and/or Support Services

Description: Weisang Germany is seeking expressions of interest from suppliers able to provide IT equipment and/or support services for the Jansz-lo Subsea Compression condition monitoring servers. Two server racks will be assembled, configured and tested in Germany and then installed and operated at the Barrow Island LNG Plant and on a floater platform, operated by Chevron Australia.
Optionally, supplier shall deliver the following hardware to Weisang premises, Germany:

- HPE Servers
- Cisco Switches
- WD Portable Disk Arrays
- APC ATS Switches

Supplier's scope shall at least include the following services:

- Replacement/repair services during the warranty period, which is 48 months from Completion of the Work with an option to be extended.

The hardware shall be serviced from an onshore location west coast Australia (i. e. Perth) in cooperation with operator Chevron. Hardware to be replaced shall be configured according to Weisang's instructions and provided backup images.

Suppliers shall have experience with:

- Delivering and servicing IT equipment used in Australian offshore projects operating on the North West Shelf.

All non-replaceable equipment shall fulfil a 50 years design life.
