

Lambert Deep and GWF3 Brownfields Project

Project	Lambert Deep and GWF3 Brownfields Project																								
Package Title	Control Valves																								
Reference Number	079331C004-3.03.15																								
Package Description	<p>Woodside intends to execute the GWF3 and Lambert Deep developments as an integrated low-cost single project. The proposed development scope comprises the GWF3 and Lambert Deep (LD) to be tied back to two existing facilities, Goodwyn A and Angel respectively. Each individual development is different in location, scale and complexity but when executed as a single project can leverage on synergies from coordinated drilling and subsea installation campaign therefore reducing overall capital expenditure..</p> <p><u>Scope of Work:</u></p> <p>Supply of Control Valves ranging from 50mm to 300mm, 300# to 2500#, inclusive of Fisher DVC Fieldbus Positioner on Woodside Energy Ltd's Angel Platform for the GWF3 and Lambert Deep Project</p>
