

## Cross River Rail – Tunnels & Stations

### Expression of Interest (EOI)

# Supply & Install of Glazing (internal and external)

## General Description

CPB Contractors, BAM, Ghella and UGL Joint Venture (CBGU D&C JV), has been appointed the principal design and construction contractor for the Tunnel and Stations package of the Cross River Rail project, which includes:

- Four new, state-of-the-art underground stations at Boggo Road, Woolloongabba, Albert Street and Roma Street and an upgrade of the Dutton Park station
- A 10.2km rail line from Dutton Park to Bowen Hills, which includes 5.9 kilometres of twin tunnels under the Brisbane River and Brisbane CBD

With major construction expected to be completed in late 2024, Cross River Rail will unlock the bottleneck at the core of Brisbane's transport network, allowing more trains to run more often and integrating with new roads and bus services allowing future network growth in the region.

The project will increase public transport network services, their connectivity and encourage more people to use public transport, helping to ease congestion on major arterial roads.

Cross River Rail will also be one of Queensland's most important job generating projects and will support economic growth and employment for Queenslanders for years to come. During its construction the project will provide an average of 1,500 jobs per year, and create an equivalent of 450 apprenticeships and traineeships throughout the life of the project.

## Expressions of Interest

CBGU D&C JV encourages local businesses interested in Supply & Install of Glazing (internal and external) to register an expression of interest (EOI) through the ICN Gateway webpage.

## Specific Scope Requirements

The Scope of Work may include:

Internal Glazing system (approx. 5,000-6,000m<sup>2</sup> qty) comprising of:

- Structural silicone frameless cladding system
- Low-iron laminated glazing
- Ceramic frit to reverse

External Glazing system

- Podium frameless glazing with steel vertical mullion 14m high (approx. 1,500-2,000m<sup>2</sup> qty)
- Podium frameless glazing with steel vertical mullion 7m high (approx. 500-1,000m<sup>2</sup> qty)

- Skylights – glass panel on steel subframe and steel primary frame flat panels (ceiling)

**Location of works:** Brisbane

**Forecast Award Date:** From August 2021

**Delivery Schedule:** It is anticipated that these works will be required on site from March 2022

## Disclaimer

Scope of Work is indicative only and is intended to be used as a summary description of work which may be required by CBGU D&C JV and may be subject to change. Full scopes of work will be made available to parties that are invited to tender. There is no undertaking to contract or proceed to a competitive process implied by this form. Further contact with interested suppliers will be at CBGU D&C JV's discretion following successful vendor pre-qualification.
