

Tanami Expansion 2 (TE 2) Project - EXPRESSION OF INTEREST (EOI)

Project Overview: The Newmont Tanami Operation (NTO) is located in the Tanami Desert of the Northern Territory approximately 530 km north west of Alice Springs. The Brownfields mining operations are located at the Dead Bullock Soak (DBS) area approximately 42 km to the west of the Granites. The nearest settlement is Yuendumu some 250 km southeast of The Granites. The Tanami Expansion 2 (TE 2) Project consists of expanding the mining infrastructure at Newmont Goldcorp Tanami Operations and potential increase of current ore production rate from its current nominal 2.6 Mtpa.

Package Title: Jack Catches

Reference: P4506

Package Description: The scope of this package covers the design, supply, manufacturing, fabrication, heat treatment, corrosion protection, assembly, inspection, testing and certification shipping, and delivery, of the jack catches, energy absorption buffers and support frames for the Koepe and Double Drum Winders headframe over the travel arresting system as follows:

Koepe Production Winder

- Koepe winder skip 5-lug jack catch box, support frames, and energy absorption buffers, complete for outer posts for the headframe – 4 sets
- Koepe winder skip double-sided 5-lug jack catch box, support frames, and energy absorption buffers, complete for inner posts for the headframe – 2 sets

Double Drum Personnel-riding Winder

- Double drum winder cage 5-lug jack catch box, support frames, and energy absorption buffers, complete for the headframe – 2 sets
- Double drum winder counterweight 5-lug jack catch box, support frames, and energy absorption buffers, complete for the headframe – 2 sets

All jack catch assemblies must be supplied including steelwork anchor fasteners for use on the Koepe Production winder and Double Drum Personnel-riding winder.

The following items are specifically excluded from this scope and will be supplied by others:

- Conveyances
- Detaching hooks, links and drawbars
- Arresting devices
- Civil / structural work pertaining to the arresting devices
- Installation in the headframe
- Off-loading on site

The Supplier shall be responsible for the design, supply and delivery of the whole works, including such work as may be required, but not specifically described here; and will supply all labour, equipment and consumables to facilitate the works.

In accordance with Newmont's commitments to building local and Indigenous capacity in the region, the tender evaluation will include a weighting for utilising local regional

businesses in the Northern Territory.

Newmont reserve the right to combine this package and or parts of this package with any other project package.

Key Information to be included in the EOI:

Must provide resourcing information specific for the contract package.

Must provide details of a Quality Management system and records of previous performance.

Key Milestones:

Tenderers Release Date: 03.08.2020

Target Contract Award Date: 16.11.2020

Completion: TBA

Expression of Interest:

Contractors are invited to express an interest in this package by registering on the ICN Gateway on line platform. Please ensure your ICN company profile is up to date before registering your expression of interest.

EOI Closing Date:

28.07.2020
