<p>Project Description</p>	<p>The Shiploader and Berth Replacement project is a brownfields project located within the lease boundaries of the existing Hay Point Coal Terminal at the port of Hay Point, approximately 38 kilometres south of Mackay, Central Queensland. The project includes the disassembly and replacement of one of the existing Shiploaders and Berths to improve materials handling throughput and provide cyclonic wave immunity to terminal operations.</p> <p>MCCONNELL DOWELL</p> <p>McConnell Dowell has entered into an early contractor services contract with BMA and is expecting to enter into a construction contract for the delivery of the Hay Point Coal Terminal Shiploader 2 and Berth 2 Replacement Project in November 2020. McConnell Dowell as primary contractor is responsible for all of the above listed project scope except the fabrication of the new shiploader (SL2A) to be performed by others.</p>
