

## Rheinmetall NIOA Munitions ICN Gateway Expression of Interest (EOI) Sub-contractor. 1000t H-Frame Press capability

RNM is seeking expressions of interest (EOI) from suitably equipped businesses able to provide a 1000t Pressing Service for maintenance items from our facility in Maryborough, QLD	
Scope of Works	Remove and re-fit forging dies.
RNM Reference	RNM-2015
Project Description	<p>RNM is currently constructing a new, advanced forging and manufacturing facility located on a greenfield site within an existing industrial precinct in Maryborough, Queensland.</p> <p>The facility will manufacture large caliber artillery projectile shells with an initial operating capacity of 30,000 artillery shell cases per year.</p>
Scope	<p>RNM is looking for EOI from companies willing and capable to provide a periodic hydraulic press, fitting service. As part of our new Forging plant there are die holders that have a removable die pressed within that will need scheduled replacement as part of our maintenance plan.</p> <p>The forge manufacturer recommends a 1000t press capability. Their tests have shown that 800t was required to remove/re-fit this insert as new.</p> <p>RNM would remove items from the forge and suitably clean, pack and send on freight Australia wide as necessary.</p> <p>As a general indication, the steel die holders are approximately Ø700mm and 700mm tall.</p> <p>The removable item is approximately Ø320mm and 535mm long with a contoured inner diameter approximately Ø150mm.</p> <p>The removeable die is suitably heat treated.</p>
Location of Works	52 Industrial Av, Maryborough West, QLD, 4650 (Lot 1, SP270124)
