

# List of Work Packages on the ICN Gateway

LAND 907 Phase 2 and LAND 8160 Phase 1 Heavy Armour Capability Systems (HACS) Projects – Sustainment Phase

| Technology Group | System                          | Subsystem                                  | Interest tick box |
|------------------|---------------------------------|--|-------------------|
| PROPULSION       | POWER PACK                      | MAIN ENGINE                                |                   |
| PROPULSION       | POWER PACK                      | TRANSMISSION                               |                   |
| PROPULSION       | POWER PACK                      | POWERPACK INTERFACES                       |                   |
| PROPULSION       | POWER UNIT                      | COOLING SYSTEM                             |                   |
| PROPULSION       | POWER UNIT                      | FUEL SYSTEM                                |                   |
| PROPULSION       | POWER UNIT                      | AIR AND EXHAUST SYSTEMS                    |                   |
| PROPULSION       | POWER UNIT                      | LUBRICATION SYSTEM                         |                   |
| PROPULSION       | POWER UNIT                      | ELECTRICAL                                 |                   |
| PROPULSION       | POWER UNIT                      | ANCILLARY                                  |                   |
| PROPULSION       | POWER UNIT                      | HYDRAULIC                                  |                   |
| PROPULSION       | ENGINE COOLING SYSTEM           | FLUID                                      |                   |
| PROPULSION       | ENGINE COOLING SYSTEM           | AIR AND EXHAUST SYSTEMS                    |                   |
| PROPULSION       | FUEL SYSTEMS                    | STORAGE                                    |                   |
| PROPULSION       | FUEL SYSTEMS                    | DISTRIBUTION                               |                   |
| PROPULSION       | FUEL SYSTEMS                    | PRIMING                                    |                   |
| PROPULSION       | FUEL SYSTEMS                    | FUEL INJECTION                             |                   |
| PROPULSION       | FUEL SYSTEMS                    | INDICATING                                 |                   |
| PROPULSION       | FUEL SYSTEMS                    | VENTING AND DE-FUELING                     |                   |
| PROPULSION       | AIR AND EXHAUST SYSTEMS         | AIR SYSTEM                                 |                   |
| PROPULSION       | AIR AND EXHAUST SYSTEMS         | COLLECTOR                                  |                   |
| PROPULSION       | AIR AND EXHAUST SYSTEMS         | NOISE SUPPRESION                           |                   |
| PROPULSION       | AIR AND EXHAUST SYSTEMS         | EMMISSION CONTROL                          |                   |
| PROPULSION       | LUBRICATION SYSTEMS             | STORAGE                                    |                   |
| PROPULSION       | LUBRICATION SYSTEMS             | DISTRIBUTION                               |                   |
| PROPULSION       | LUBRICATION SYSTEMS             | LUBRICATING                                |                   |
| PROPULSION       | TRANSMISSION                    | GEARBOX                                    |                   |
| PROPULSION       | TRANSMISSION                    | STEERING CONTROL ASSEMBLY                  |                   |
| PROPULSION       | TRANSMISSION                    | BRAKE ASSEMBLY                             |                   |
| PROPULSION       | TRANSMISSION                    | AUXILIARY DRIVE / POWER TAKE-OFF           |                   |
| PROPULSION       | TRANSMISSION                    | CLUTHCH                                    |                   |
| PROPULSION       | TRANSMISSION                    | DRIVE SHAFT                                |                   |
| PROPULSION       | TRANSMISSION                    | TORQUE CONVERTOR                           |                   |
| PROPULSION       | TRANSMISSION                    | DIFFERENTIAL                               |                   |
