<b>Scope of Works</b>	
<p>Brisbane Move is seeking EOI from suitably qualified companies for the performance of the works at Countess Street Busway Station for Stage 1.</p> <p>The purpose of the Stage 1 portion of the Countess St station upgrade is to provide temporary Metro vehicle charging facilities including a temporary charging station and a fast charging station. The scope of works includes (but is not limited to):</p>	

### General

- Work to be completed on nightshift;
- Work to be carried out in TMR/Translink operational Busway.

### Earthworks and Demolition

- Demolition of existing retaining wall/upstand;
- Minor earthworks and site level changes to road reserve at Countess Street to construct RMU;
- Cutting of asphalt and removal of pavement for foundations;
- Relocation of existing 25mm dia. incoming water service;
- Identify location of existing PUP's and protect services during construction.

### Minor Concrete Works

- Concrete, formwork and reinforcement to:
  - base of 1000kVA RMU and associated cable trench;
  - foundations to charging equipment container and steel landings/steps;
  - foundation to temporary pilot vehicle fast charging equipment stanchion;
  - other minor concrete works.
- Supply and Installation of precast concrete road barriers.

### Electrical Infrastructure Works (no electrical cables and equipment to be supplied and installed)

- Construct electrical pits and conduits in ground between electrical equipment;
- Supply and installation of cable tray and supports to existing concrete retaining wall;
- Supply and installation of earthing to charging equipment and container.

### Minor Structural Works

- Supply and installation of steel landings, handrails and steps to access temporary charging container.

### Miscellaneous Works

- Removal of existing line marking and replace as required to revised asphalt configuration;
- Miscellaneous repairs to road pavement after construction.

## **Programme**

The works are due to commence in April 2021.  
Indicative program duration is between 5 to 6 months.

## **Building Code**

The Code for the Tendering and Performance of Building Work 2016 applies to the building work associated with this project. By submitting an expression of interest in, or tender for, this project, you will become subject to the Code for the Tendering and Performance of Building Work 2016.

Please refer to the Australian Building and Construction Commission (ABCC) website for further information at <http://www.abcc.gov.au>

## **WHS Requirements**

Brisbane Move are strongly committed to delivering a project which is targeting zero injuries and incidents. Brisbane Move wish to engage contractors with a similar commitment to personnel and process safety.

## **Local Content Requirements**

Brisbane Move are committed to creating sustainable employment and economic development opportunities for local and indigenous business.

Brisbane Move will positively consider local subcontractors and suppliers, identified as South-East Queensland, subject to best-for-Project and value-for-money objectives.

## Training Requirements & Indigenous Participation

As part of The Queensland Government Building and Construction Training Policy, Subcontractors are required to meet a minimum of 10 percent of total labour hours of training to be undertaken by apprentices and/or trainees and through other workforce training.

The Training Policy supports employment opportunities and skills development in Queensland's building and construction industry. It also focuses on increasing the economic independence of Aboriginal and Torres Strait Islander Queenslanders in the industry.

## Brisbane Move Project Objectives

Brisbane Move is committed to the project objectives and expect same commitment from their partners, stakeholders, suppliers and subcontractors.

- **Safety:** everyone goes home safe, every day;
- **Time:** to procure and deliver the project works in accordance with specified milestones;
- **Integration and performance:** delivery of the project works in a way that meets the operational, performance, integration and reliability requirements;
- **Whole of project:** performance of the project activities in a manner that makes a positive contribution to the successful delivery of the broader Brisbane Metro Project;
- **Disruption management:** performance of the project activities in a manner that minimises disruption, and ensures no unplanned disruptions to existing public transport services, road networks, businesses and the broader community;
- **Value for money:** to ensure a cost-effective solution in relation to the design and delivery of all project works that achieves optimum value-for-money outcome;
- **Stakeholders:** delivery of the project works to support collaborative relationships with stakeholders;
- **Community:** delivery of the project works to support positive and collaborative relationships with the community.
- **Sustainability:** Brisbane Move is seeking to achieve an ISCA in Design and Construction rating score of "Gold" for the project works.

## Instructions to suppliers and subcontractors

If your business has the required capability and capacity to undertake the stated scope of work, please submit a registration of interest against this EOI, and ensure that:

- your company profile on the ICN Gateway is complete, up-to-date and accurate, including electing to be notified via email of supply opportunities;
- you respond to all project and work package-specific questions.

## Disclaimer

Scope of Work is indicative only and is intended to be used as a summary description of the works which may be required by Brisbane Move on the Brisbane Metro Project. This information may be subject to change. Full scopes of work will be made available to parties that are invited to tender or to whom a request for quotation is issued. There is no undertaking to contract or proceed to a competitive process implied by this form. Brisbane Move may or may not contact interested suppliers at the company's discretion.

## Selection criteria

Following selection criteria will be applied to suppliers and subcontractors submitting their interest:

- 
- **Prior safety history** – Brisbane Move consider safety first and foremost and will be looking at statistics that reflect it on safe work practices.
  - **Local content** – Brisbane Move will positively consider subcontractors and suppliers that have the majority of their workforce and business in South-East Queensland and are able to employ local resources and to use local suppliers.
  - **Prior work history** – Brisbane Move will be looking for a history of working on similar scope of works on similar sized projects and with the same client (BCC)
  - **Resources** – Brisbane Move want to ensure that all subcontractors and suppliers are able to fulfil their obligations on time, every time and have the adequate resources for the scope they are tendering for, both in manpower and equipment.
  - **Indigenous employment** – Brisbane Move will positively consider subcontractors and suppliers that are able to employ Indigenous Australians.
  - **Diversity, Transparency and Equal Opportunities** - Brisbane Move will positively consider subcontractors and suppliers that provide equal opportunities of employment to less favoured or disadvantaged groups.
  - **Training records** – Brisbane Move will positively consider subcontractors and suppliers that train and develop their staff.
