Project Title: Snowy 2.0 – Future Generation Joint Venture

Project Description: Salini Impregilo, Clough and Lane trading as Future Generation Joint Venture (Future Gen) is a main contractor of Snowy 2.0 EPC Project. The Project is a pumped hydro project that will increase the generation capacity of the Snowy Mountains Scheme by up to 2,000MW and at full capacity will provide approximately 350,000MW/h of energy storage. The project includes all activities associated with the requirements for the Snowy 2.0 Pumped Hydro-electric Scheme.

Opportunity Title: Future Generation Joint Venture (FGJV) would like to engage a company with proven, project transportation expertise and a safety-first culture to provide a comprehensive, state of the art national transportation service for the Snowy Hydro 2.0 Project.

Opportunity Description: The Subcontractor is required to submit its best proposal in a detailed schedule of rates for the execution of the following scope of work:

- To provide a cost-effective, value added national transportation solution that maintains a high level of service & reliability using state of the art technologies and that can provide a real time track & trace capability.
- To provide a transport service that can analyze our specific requirements and will use a strategic, methodical approach to all logistical challenges.
- To provide a detailed methodology of how the subcontractor manages their staff licensing, training qualifications, driver infringements and NCR's.
- To explain how they intend to operate safely in the remote alpine conditions to avoid incident, equipment damage which includes methodology around load restraint.
- To Provide a detailed operational weekly lookahead as well as a monthly operational report to FGJV management as requested.
- To comply with all relevant FGJV Management plans, Standard operating procedures.
- To comply with NHVR (COR) Chain of Responsibility Regulations and in accordance with (HVNL) Heavy Vehicle National Law e.g. Fatigue, Mass Management, Maintenance Management, Load restraint & Speed.
- To comply with National Transport Commission (NTC) Load Restraint Guide.
- To comply with all Australian Government legislation & Australian standards in relation to packaging, Australian Customs & Border Protection, Department of Agriculture, and water resources.

- To comply with National code of practice for Manual Handling (NOHSC:2005(1990))
- To comply with ISO 90001 Quality, ISO14001 Environmental, OHSAS18001 Occupational Health & Safety Management.
- To comply with all ISO Standards relating to Container Freight, Brake Bulk & RORO.

Requirements:

FG JV requires Vendor:

- to provide evidence of similar experience in the Business Industry
- to provide evidence of the required government or industry certifications, licenses, associations and/or insurances to deliver the opportunity.
- to comply with all Safety and Environmental Management requirements for the Project. Site Specific Environmental Management Plans will be prepared by FGJV and approved by the NSW Department of Planning, Industry and Environment (DPIE). The Subcontractor must comply with these plans once approved by DPIE.
- to demonstrate an exemplary safety record and a documented management system for tracking safety performance
- to be financially viable and can demonstrate commercial value.
- to demonstrate a strong commitment to training and retaining a local workforce
- to have an excellent track record in employing and progressing the careers of Indigenous people
- to progressively finding ways to develop the careers of women, veterans, and people with disabilities.
- Treat the environmental they are working in with respect and consideration.

General Information:

FGJV will consider all ICN Registrations where:

- The business demonstrates through their response a clear capability against the key requirements.
- The business completes a response to all Future Gen questions and/or Future Gen documentation
- The businesses ICN profile is up to date and complete.
- The registration is complete prior to any closing date.
- The business operates in Australia and is a registered Australian business.

Local & Regional Content: FGJV strongly encourages businesses who have head offices and/or dedicated premises with the appropriate Local Government approvals from the following regions:

- Snowy Monaro Regional Council Local Government Area.
- Snowy Valleys Council Local Government Area.
- Furthermore, Future Gen strongly encourages Aboriginal and Torres Strait Islander businesses to submit applications.

Notes:

FGJV will obtain ongoing reporting from ICN on a regular basis.
FGJV will review all registrations, noting that any incomplete registration will be excluded from consideration.
Further involvement may range from a request for a follow up meeting; request to prequalify, through to request for tender.
Submitting a registration of interest does not guarantee that the supplier will be selected for prequalification or tender opportunities.
