

**Response to Questions –  
Latrobe Regional Hospital Stage 3A Redevelopment  
Industry Briefing (online event)  
March 17<sup>th</sup>, 2021  
All responses are from Ontoit**

**Question:**

Has the radiation shielding design for the medical imaging unit, ED and other relevant units been completed and if so, how were the design consultants obtained e.g. via architects or other channel?

**Response:**

Yes, the design has been completed and included as part of the head contractors tender. The procurement process was through the Architect (Principal Design Consultant).

**Question:**

Will the office furniture fit out be part of the build or be a separate RFQ?

**Response:**

The office furniture has been designed but included as a Group 3 FF&E item which will be tendered by LRH. Should a supplier be interested in supplying this please register interest through the LRH Procurement email provided in the presentation.

**Question:**

Has all FF & E equipment been specified yet?

**Response:**

The FF&E has been specified and is provided under Group 1 (Supply and install by the contractor), Group 2 (Supply and procured by LRH and installed by the contractor) and Group 3 (Supply, procure and install by LRH). The Group 2 and 3 items which typically related to loose furniture, disposables and unfixed items will be tendered by LRH. Should the suppliers be interested in supplying this FF&E, please register through the LRH Procurement email provided in the presentation.
