

Tendering for the Cairns Convention Centre Expansion and Refurbishment project

The Department of Energy and Public Works invites interested local businesses and suppliers to a free information session on tendering for the remaining expansion contract works; on the \$176 million Cairns Convention Centre project with the Managing Contractor Lendlease.

Opportunities for the expansion phase include the following trade packages, block work, metal work, landscaping, roller shutters, commercial kitchen, and tiling. The expansion phase is scheduled to be completed in 2022.

The expansion stage, which is already underway, will deliver an additional 10,500 square metres that will include a large undercover forecourt and larger main entry. It also includes a 410-seat plenary lecture space plus 3 x 120-seat meeting rooms, exhibition space for up to 30 display booths and a 500-seat rooftop banquet space with views over Trinity Inlet.

The forum will provide you with the following opportunities:

- Important tips for addressing the tender assessment criteria in your tender submission
- learn more about the upcoming trade packages to be called in 2021.
- writing an effective tender response that outlines the expertise, experience and value-add activities of your respective businesses

The forum program will consist of three presentations from:

- Department of Energy and Public Works will provide an overview on the Queensland Government's Procurement Policy and how priorities such as Best Practice Principles and local participation are assessed when tender packages are released.
- The Managing Contractor Lendlease will provide an overview of the tender criteria
- Department of State Development, Manufacturing, Infrastructure and Planning will provide an overview on tips on how to prepare for tender opportunities.
