

MARDIE SALT AND POTASH PROJECT

EXPRESSION OF INTEREST

Project Overview:

The proposed Mardie Salt & Potash Project (**Project**) is located within Australia’s major salt producing region on the West Pilbara coast. The Project is proposing to be Australia’s first to produce salt and Sulphate of Potash (**SOP**) through the evaporation of seawater.

Package Title:

Dredging

Package Reference:

3000-CON-MAR011

Package Description:

The Scope of Work for construction of the dredged transhipment channel, swing basin and berth pocket at the Cape Preston West Port (refer Figure 1 and Figure 2).

Scope Requirements:

Contractor will be required to construct the following:

- a dredged transhipment channel (approx. 4.5km long x 100m wide)
- a dredged swing basin (approx. 200m diameter); and
- a dredged berth pocket (approx. 165m long x 40m wide).

The total quantity of dredging required is approx. 600,000 m³

The works consists of all necessary activities including, but not limited to the following: mobilisation and demobilisation, quarantine requirements, Pilbara Ports Authority approvals, transport, supply of all plant, labour (including offshore accommodation), vessels (dredges, hopper barges, tugs, crew transfer, and survey) and materials (other than those which the Company may supply), hydrographic survey and handover.

Contracting Strategy:

The works will be “Construct-only” contract with a Company provided commercial terms.

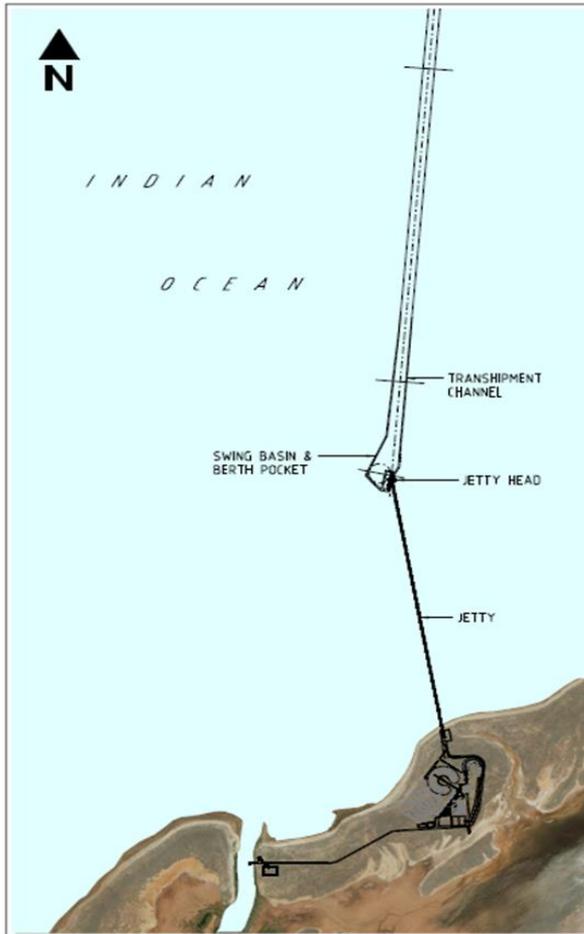

Figure 2 – Project Works

Forecast Award Date: Q2 2022

Forecast Construction Commencement Date: Q3 2022

Pre-Qualification Requirements:

Contractor is required to demonstrate a similar scale of works and complexity for the stated scope and be willing to provide past project references (and if necessary, site visits to past projects) to establish market capability to carry out the works.

Expression of Interest:

Contractors are invited to express an interest in this scope of work by registering on the ICN Gateway online platform. Please ensure:

- The Company profile on ICN Gateway is complete, up-to-date and accurate; and
- Interest is registered as full-scope or partial-scope supplier (where applicable);

Disclaimer:

This package description and target award date is indicative only and subject to change. It is intended to provide a brief outline only of certain works that may be required for the proposed Mardie Project and should be read in conjunction with the Project description on the ICN Gateway. Full scopes of work will be made available to parties invited to tender. There is no undertaking to contract or proceed to a competitive process implied by this EOI. Further contact with interested suppliers will be at BCI Minerals discretion.
