

## Tanami Expansion 2 (TE 2) Project - EXPRESSION OF INTEREST (EOI)

**Project Overview:** The Newmont Tanami Operation (NTO) is located in the Tanami Desert of the Northern Territory approximately 530 km north west of Alice Springs. The Brownfields mining operations are located at the Dead Bullock Soak (DBS) area approximately 42 km to the west of the Granites. The nearest settlement is Yuendumu some 250 km southeast of The Granites. The Tanami Expansion 2 (TE 2) Project consists of expanding the mining infrastructure at Newmont Goldcorp Tanami Operations and potential increase of current ore production rate from its current nominal 2.6 Mtpa.

**Package Title:** Slew Loading Conveyor

**Reference:** P4510

**Package Description:** The scope of work covers the shop detailing, fabrication, assembling, factory testing and delivery of the Slew Loading Conveyor CV101 (SLC) located at the Loading Plants.

The SLC comprises a belt conveyor with a hydraulic conveyor drive system, hydraulic slewing mechanism, load cell system, feed chute, discharge chute and skip loading chutes

The SLC is a trough belt conveyor mounted on a slewing mechanism which allows it to alternate between the positions required to load each of the Mine Hoist skips. The SLC is mounted on load pin type load cells allowing the conveyor to be accurately loaded with a weight of ore equal to the payload of the skip. The slewing mechanism system consists of a slew bearing located at the tail end pivot point. The other end of the conveyor is supported on double rail mounted bogies. Slewing of the machine is accomplished using two linear hydraulic actuators powered by the Loading Station Hydraulic Power Pack. The positioning of the conveyor is controlled using position switches. The conveyor is driven by a hydraulic motor located on the tail pulley. The hydraulic motor is powered from a hydraulic power pack. The conveyor belt is tensioned via a manual take-up on the tail pulley.

The Supplier shall be responsible for the design, supply and delivery of the whole works, including such work as may be required, but not specifically described here; and will supply all labour, equipment and consumables to facilitate the works.

In accordance with Newmont's commitments to building local and Indigenous capacity in the region, the tender evaluation will include a weighting for utilising local regional businesses in the Northern Territory.

Newmont reserve the right to combine this package and or parts of this package with any other project package.

**Key Information to be included in the EOI:** Must provide resourcing information specific for the contract package.

Must provide details of a Quality Management system and records of previous performance.

<b>Key Milestones:</b>	Tenderers Release Date: 27.10.21 Target Contract Award Date: 31.01.22 Completion: TBA
<b>Expression of Interest:</b>	Contractors are invited to express an interest in this package by registering on the ICN Gateway online platform. Please ensure your ICN company profile is up to date before registering your expression of interest.
<b>EOI Closing Date:</b>	18.08.21
<b>Contact:</b>	Industry Capability Network Northern Territory <a href="http://www.gateway.icn.org.au">www.gateway.icn.org.au</a> .
