

## MARDIE SALT AND POTASH PROJECT

### EXPRESSION OF INTEREST

#### Project Overview:

The proposed Mardie Salt & Potash Project (**Project**) is located within Australia's major salt producing region on the West Pilbara coast. The Project is proposing to be Australia's first to produce salt and Sulphate of Potash (**SOP**) through the evaporation of seawater.

**Figure 1 – Project Location**

#### Package Title:

Design and Construction of Non-Process Infrastructure

#### Package Reference:

MAR019

#### Package Description:

The Scope of Work covers to provision of labour, plant and equipment, materials, management, supervision and other things necessary to facilitate the design, fabrication, supply, delivery, construction, fit out and commissioning of non-process infrastructure (**NPI**) for the Project.

#### Specific Scope Requirements:

Contractors wishing to be considered must be able to demonstrate their ability to meet the following scope requirements:

- Conception and design of fit-for-purpose NPI infrastructure;
- Shop detailing and management of fabrication and procurement to supply and support the construction of NPI infrastructure; and
- Construction, testing, commissioning, and handover of NPI infrastructure.

The NPI infrastructure under this scope is likely to include:

- Seawater storage pond and other miscellaneous ponds;
- Desalination plant;
- Office, crib and ablution buildings with sewerage holding tanks;
- Operations workshop buildings;
- HV/LV Washdown bays;
- Security gatehouse with boom gate;
- First aid, emergency response and training building;
- Warehouse;
- Laboratory; and
- Mobile equipment workshop, crib and ablutions and holding tanks.

<b>Contracting Strategy:</b>	The works will be performed under a Design and Construct ( <b>DAC</b> ) agreement with Company provided commercial terms.
<b>Forecast Award Date:</b>	Q4 2021
<b>Forecast Construction Commencement Date:</b>	Q1 2022
<b>Generic Pre-Qualification Requirements:</b>	Contractor is required to demonstrate similar scale and complexity of works successfully performed for the stated scope, and be willing to provide past project references (and if necessary site visits to past projects) to establish market capability to carry out the works.
<b>Expression of Interest:</b>	<p>Contractors are invited to express an interest in this scope of work by registering on the ICN Gateway online platform.</p> <p>Please ensure:</p> <ul style="list-style-type: none"><li>• The Company profile on ICN Gateway is complete, up-to-date and accurate; and</li><li>• Interest is registered as full-scope supplier.</li></ul>
<b>Disclaimer:</b>	<p><b><i>This package description and target award date is indicative only and subject to change. It is intended to provide a brief outline only of certain works that may be required for the proposed BCI Minerals Project and should be read in conjunction with the BCI Minerals Project description on ICN Gateway. Full scopes of work will be made available to parties invited to tender. There is no undertaking to contract or proceed to a competitive process implied by this form. Further contact with interested suppliers will be at BCI Minerals' discretion.</i></b></p>
