Disclaimer:	<p><i>This EOI will be used, in part, to establish a list of potential tenderers, providing a general understanding of their capabilities to execute the scope outlined. The EOI will be coupled with subsequent steps and stages in the tender process to be adopted by Arafura Resources Ltd (the "Company"), and applicants' response to this EOI shall not form any part of a commitment or agreement with or on behalf of the Company to proceed or contract with responding parties.</i></p> <p><i>The relevant package details outlined above, and/or scale of scope for this package may be subject to change at the discretion of the Company.</i></p>
Project:	Nolans Rare Earths Project (the "Project")
Project Overview:	<p>Arafura Resources Limited ("Arafura" or the "Company") is a publicly listed company on the Australian Stock Exchange and proposing to develop its 100%-owned Nolans Rare Earths Project (the "Project"). The Project is planning to produce three (3) rare earth products and a phosphoric acid by-product over its 38-year mine life. The flagship product, neodymium-praseodymium (NdPr) oxide, is a key constituent of permanent magnets utilised in the burgeoning electric vehicle and clean energy industries. At full production, the Project will</p>

	<p>target a capacity of providing up to 10 per cent of the world's demand for NdPr oxide.</p> <p>The Project will encompass a mine, process plant (comprising beneficiation, extraction, separation, and sulphuric acid plants) and related non-process infrastructure (including accommodation village) to be constructed and located at the Nolans site, 135 kilometres north of Alice Springs in Australia's Northern Territory.</p>
Date:	21 January 2022
