

Darwin International Airport – Large Scale Solar Power Generation

Package Number

ADG-003

Package Name

DIA - Large Scale Solar Power Generation

Scope of Work

Design, supply, installation and certification of design, supply, installation, testing and commissioning of new large scale solar (rooftop and/or ground mount) PV panels and inverters, power distribution infrastructure including all interconnections with DIA's Low Voltage electricity networks and SCADA systems and liaisons with local supply authorities and project stakeholders.

Minimum SOW Requirements

Suitably qualified and experienced licenced electrical contractors and photovoltaic specialist contractors
Suitably qualified structural design and construction experience
Green Energy Council Accreditation
PWC Accreditation

Delivery / Supply Schedule

July 2022 to July 2023

Airport Development Group is committed to ensuring Australian Industry the opportunity to participate in the DIA Large Scale Solar Power Generation Project.

You are invited to submit an expression of interest if you have the relevant capability and capacity to undertake the scope of work. Suppliers and contractors will only be considered for prequalification and tender lists if suitably qualified.

All expressions of interest (EOIs) are to be completed via ICN Gateway www.adg.icn.org.au.

Please contact ICNNT if EOI assistance is required. Contact details: (08) 8922 9422 or resources@icnnt.org.au.

Note that an important part of the project registration process is submitting your EOI at the correct Tier level.

Tier level definition:

Full Scope (Tier 1): Able to produce / supply all of the package. **Partial Scope (Tier 2):** Able to produce / supply SOME of the package.

More information about Airport Development Group can be found on the Airport Development Group website, www.adgnt.com.au
