

## PLUTO LNG TRAIN 1: SCARBOROUGH MODIFICATIONS

MR Number: 26457-110-MRA-SS01-00002

Title: Structural Steel Fabrication

Scope of Work: Structural Steel – Scope of Work

Furnish structural and miscellaneous steel in accordance with applicable specifications, drawings, data sheets and Technical Requirements. Furnish fireproofing in accordance with BUYER's drawings (drawings will be provided to the SELLER as part of actual releases for fabrication at later dates).

The SELLER's responsibilities include but are not limited to:

- Sourcing of raw materials
- Material verification testing of raw materials
- Fabrication of structural and miscellaneous steel
- Inspection and testing of structural and miscellaneous steel
- Galvanizing of structural and miscellaneous steel or other coating as applicable
- Panel, furnish, fabricate, galvanize and inspect grating and floor plate
- Marking and bundling
- Fireproofing of structural steel

65 Tons of structural steel is estimated to be locally procured and installed at Site as stick-built. Structural steel shall conform to Australian standards as will be listed in applicable specifications.
