

A modern mining company

WMP-CON-164, Waste Management Services

Please note that any EOI submissions, that do not have a fully completed West Musgrave Supplier Registration Form, will not be considered. Work Package Number WMP-CON-164

OZ Minerals Musgrave Operations Pty Ltd requires the services of a suitably qualified and resourced service provider to undertake waste management services for the West Musgrave Project (**WMP**).

Key areas of scope are summarised below:

Scope of Work

It is anticipated that the WMP will generate the types of waste listed below and the following recommended processes will be introduced to effectively manage the disposal the varying types of waste.

It is anticipated that the project will produce the following types of waste:

- Packaging waste (plastic, cardboard, polystyrene, wood, particle board, paper)
- Biodegradable waste (kitchen waste, lunch containers & utensils, paper)
- Electronic waste (printers, cartridges phones, computers)
- Chemical waste (poisons, chemicals, hydrocarbons, contaminated materials)
- Controlled waste (sewage, EPA controlled waste, waste oil, hoses, filters etc)
- Medical or biohazard waste (COVID, blood, personal hygiene)
- Inert waste (concrete, cement, rock, gravels, sand)
- Recyclable waste (containers, metals, cables)

It is proposed that the following waste management processes will be implemented:

- Waste will be disposed into various size bins, which will be located throughout the site
- Collection of waste will be from bins and/or skips which will be located throughout the site
- At source segregation will be implemented
- Putrescible waste will be collected and transported off site immediately
- Bulk waste will be staged and segregated at a dedicated laydown area for disposal off site
- Waste will be transported off site to licenced landfills which are approved to receive waste

Next Steps

On the receipt of EOI's from relevant waste management services providers, OZ Minerals will review each EOI and provide feedback where necessary. OZ Minerals will send formal correspondence to notify each successful supplier and invite them to participate in a formal Request for Tender (**RFT**) process.

In June 2022 OZ Minerals will provide RFT documentation to each successful supplier. It is anticipated that the RFT process will continue over a four (4) week duration. Following this process, a single supplier will be selected to progress and execute a service agreement for the provision of waste management services for the WMP.

The WMP is subject to internal and external approvals. A final investment decision is expected in 2022, consequently, timing and/or scope of works, may change at the discretion of OZ Minerals.

Submission of Expression of Interest (EOI)

Please express your interest by completing the [West Musgrave Supplier Registration Form](#).

Please note that any EOI submissions, that do not have a fully completed West Musgrave Supplier Registration Form, will not be considered.

Please email WMPCommercial@ozminerals.com should you have any questions.
