

A modern mining company

WMP-CON-300-305, Mining Fleet and Associated Technologies and Services

Package Summary

OZ Minerals Musgrave Operations Pty Ltd (OZ Minerals) believes technology solutions enable a proactive response to the accelerated focus on ESG and are recognised as a critical enabler to accelerate our Strategic Aspirations of being a data driven, Modern Mining Company that ethically and responsibly explores and mines minerals to contribute to a low carbon future. Our technology focus and innovative approach include health and safety, decarbonisation and electrification, process and decision intelligence, automation, and low-impact operating ways of working.

OZ Minerals is seeking to engage the services of experienced and suitably qualified suppliers to supply:

- a mining fleet including, but not exclusive to 3 x 600t class excavators, 16 x 220t class haul trucks, a large ROM loader and ancillary equipment to support the mine including dozers, graders, drills and watercarts;
- onsite maintenance and asset management solution (including onsite parts and component support);
- fleet autonomy and fleet management system;
- fleet management process which are data driven from machine health to productivity monitoring and optimization; and
- a fleet finance solution.

An essential element of the evaluation, selection, and commercial structure will be for the suppliers to demonstrate:

- current and future capability in the supply of a mobile mining fleet in an autonomous operation and a roadmap for how autonomy can be integrated into all machines on site over time;
- systems which are data driven to improve fleet reliability, productivity, and efficiency; and
- a decarbonisation pathway for all mining fleet to achieve zero emissions by 2038

OZ Minerals may contract the entirety of the supply to a single supplier or split the works package across several suppliers based on a best for project approach.

A modern mining company

Next Steps

On the receipt of EOI's, OZ Minerals will review and on short-listing, formally advise each successful contractor/supplier that they will be invited to participate in a formal request for tender process (RFT).

OZ Minerals will publish Request for Tender (RFT) documents to successful suppliers in Q4 2022.

The West Musgrave Project is subject to internal OZ Minerals and external approvals. A final investment decision is expected in late 2022. Consequently, timing, procurement strategy and/or scope of works, may change at the discretion of OZ Minerals.

Submission of Expression of Interest (EOI)

OZ Minerals invites capable and experienced Contractor/Suppliers, who align with our '[OZ Way](#)' of working to register their EOI, clearly identifying their capability to be execute the scope of works.

OZ Minerals will use the EOIs to improve our understanding of market capability and interest. Suitable Registrants may subsequently be invited to submit a tender for this package.

Please express your interest by completing the [West Musgrave Supplier Registration](#). EOIs without a completed West Musgrave Supplier Registration will not be considered.

Please email WMPCCommercial@ozminerals.com should you have any questions.
