

Estimating and Pricing Masterclass

BAE Systems Australia GAP

Expression of Interest

Estimating & Pricing Masterclass (“E&P Masterclass”) is a two day course developed by Estimating & Pricing (E&P) at BAE Systems Australia, and delivered in partnership with the Global Access Program (GAP). The E&P Masterclass builds on the knowledge gained from the E&P Fundamentals course.

The E&P Masterclass course takes a deep dive into estimating methodologies, supply chain analysis and Variation of Price. The course also lifts the mystery around Cost and Risk Uncertainty, and what it all really means when pricing at different confidence levels. Content is underpinned with a case study and practical exercises, making for an interactive and engaging course.

Note: It is essential to attend both days to gain maximum benefit. The days are not offered separately.

****It is a prerequisite for all attendees to have attended the E&P Fundamentals course before attending the E&P Masterclass****
