

CMMC Awareness Presentation

BAE Systems Australia GAP

Expression of Interest

CMMC is a unified standard for implementing cybersecurity across the US Defense Industrial Base (DIB), which includes over 300,000 companies in the supply chain. This cyber security framework will soon become mandatory for **ALL US DoD SUPPLIERS** and has the potential to become a requirement for all major US defence projects. GAP in partnership with AIDN Australia has tasked Secure State Consultants, a CMMC certified cyber security consultancy, to deliver comprehensive CMMC awareness presentations to prepare Australian Industry. The information delivered in these workshops is **CRITICAL** to all suppliers with US export ambitions.

GAP will begin rolling out these presentations across the country and are currently seeking expressions of interest for presentations held in Brisbane, Sydney, Melbourne, Perth and Adelaide.
