

South of Embley project

Expression of interest

Mine Infrastructure Area (MIA)

Package Number: 25977-000-HC1-AKBP-00059

Package Title: Mine Infrastructure Area (MIA)

General Description

Rio Tinto's South of Embley (SoE) project is located approximately 40 km south-west of Weipa in Far North Queensland, Australia.

This package requires a Contractor to supply and construct the Operations Control Centre, crib and change room, heavy vehicle workshop, heavy vehicle and light vehicle re-fuelling, lube plant and compressed air facilities.

The expectation is that the Contractor will utilise to the maximum extent possible, modularised building structures to reduce manning levels required on-site.

Work Included

The scope of works includes, but is not limited to the following:

- Detailed excavation and grading
- Install concrete foundations, slabs and platforms
- Installing wire, cable and electrical infrastructure
- Installing pipes, valves and fittings
- Services to battery limits
- Kerbs and footpaths
- External lighting
- The supply of nominated materials and structures
- Supply and construct Operations Control Centre
- Supply and construct the crib and change rooms
- Supply and construct the heavy vehicle workshop c/w lube, re-fuelling & compressed air facilities
- Supply and construct the warehouse, fixed plant workshop and welding bay combined

Forecast Award Date: 4Q, 2016

In 2015, Rio Tinto is undertaking a detailed feasibility study that will inform a final investment decision. A decision is expected to be received in the final quarter of 2015. Future procurement decisions are dependent on board approval.
