

# Amrun project

## Expression of interest

## Artesian Bores

Package Number: 25977-000-HC3-CT20-00004

Package Title: Artesian Bores

### General Description

Rio Tinto's Amrun Project is located approximately 40 km south-west of Weipa in far North Queensland, Australia. The Amrun Project site will require the construction of six artesian bores. The scope includes drilling and completion of the bores, and construction of concrete slabs associated with the bore.

### Specific Scope Requirements

The Contractor shall be responsible for the following:

- Supply and delivery of all materials including casing and screens, drilling fluids and chemicals, grout and cements, hangers, packers and seals, headworks and associated pipe fittings and valves.
- Supply all materials and labour, excluding concrete for associated concrete slabs.
- Construct concrete slabs at six bore sites.
- Installation of isolating valve, blind plate, and bore casing.
- Supply and installation of temporary silt traps, oil traps, drilling fluid, bunds/ tanks and all other environmental measures required by Environmental Protection Agency and the Company.
- All testing and reporting for verification of compliance to specifications.
- Supply of technical drawings, documents, as-built information and drilling logs.
- Supply of documentation required by the Company for statutory licences and approvals.
- Site clean-up and labelling of bore, including clean-up and disposal of any spills.

The Contractor is responsible for obtaining Class 3 water bore drillers licence in accordance with the Water Act 2000 (Qld) for operations in artesian aquifer systems.

### Forecast Award Date: 1Q, 2016

The primary Contractor may utilise the ICN Gateway to procure subcontractors for partial scopes of work. Expressions of interest for works associated with this scope are therefore encouraged to be submitted to ICN.

## **Instructions to Tenderers**

If you believe your business has the capacity to provide required items to the primary contractor in a partial scope capacity, please submit a registration of interest via the ICN Gateway at [www.amrun.icn.org.au](http://www.amrun.icn.org.au).

Please ensure that:

- Your company profile on ICN Gateway is complete, up-to-date and accurate
- You respond to all project-specific questions via the ICN Gateway.

Please note, following award, the primary contractor may establish a subpage in the Amrun ICN Gateway to further advertise partial scope opportunities

## **More Information**

Please contact the Industry Capability Network Queensland on +61 (7) 3364 0676 should you have any enquiries regarding this scope of work.

More information about the Amrun Project can be found on the Rio Tinto website [www.riotinto.com](http://www.riotinto.com).

## **Disclaimer**

Scope of Work is indicative only and is intended to be used as a summary description of work which may be required by Rio Tinto and may be subject to change. Full scopes of work will be made available to parties that are invited to tender. There is no undertaking to contract or proceed to a competitive process implied by this form. Further contact with interested suppliers will be at Rio Tinto's discretion.
