TELLUS SUPPORTS LOCAL COMMUNITY

-  **Tellus community investment program supports local community groups that are making a difference and are creating a more sustainable future**
-  **Tellus awards grants to local community groups in the Goldfields region (WA)**
-  **Tellus sponsors local community groups in Central Australia (NT)**

Tellus Holdings Ltd (“Tellus”) is pleased to support local community organisations that are making a difference and are creating a more sustainable future through our community investment program in our project areas. This includes supporting local community and business groups in the Goldfields and Central Australia regions.

This year Tellus is pleased to support a range of community groups and initiatives in the Goldfields (WA) region including;

- Millennium kids – Exploring with Kids on Country
- Kambalda Men’s Shed initiative
- Kalgoorlie and Coolgardie youth sporting teams
- Coolgardie Horse and Pony Association
- Coolgardie Golf club
- Goldfields Business and Employee Awards

Safety is important to our business, so we are pleased to support local programs who make a difference in safety in their region including;

- Kambalda volunteer fire and rescue group
- Coolgardie Driver Reviver Program

Tellus has continued to support community and business groups in the Northern Territory. Sponsorship in Central Australia has included:

- Nyewente Basketball Club
- Titjikala football club
- Chamber of Commerce Customer Service Awards
- Annual Geoscience and Exploration Seminar

“At Tellus, we are passionate about working with local communities to create a more sustainable future. Tellus’ Community Investment program is one way we support projects that benefit our local communities,” said Managing Director Duncan van der Merwe.

About Tellus Holdings:

Tellus Holdings Ltd ("Tellus") is an infrastructure development company in the business of creating economic, social and environmental value from waste, clay and salt resources. This dual revenue model involves mining the commodities kaolin clay and rock salt in thick dry remote beds which creates world's best practice geological repositories. The voids created by mining are then used to store equipment, archives or waste using a multi- barrier system as part of an overall safety case. Tellus plans to permanently isolate hazardous waste using environmentally sound management (ESM) principles that protect the environment and human health. Tellus also supports the circular economy using long-term storage by placing like-with-like materials for operational safety reasons and to create opportunities for the future recovery of valuable materials. Tellus' business model mirrors international solutions operating in the UK, Europe and North America. Tellus is developing the proposed Sandy Ridge facility in Western Australia (WA) and the proposed Chandler facility in the Northern Territory (NT). Both Sandy Ridge and Chandler were awarded Major Project Facilitation Service by the Australian Government and Chandler was awarded Major Project Status by the NT Government.
