

## Shell CRUX

**Package Title** CRUX – Front End Engineering and Design (FEED) Services

**Scope of Work** Shell Australia Pty Ltd (“Shell”) is seeking Expressions of Interest (“EoI”) from experienced and capable contractors to provide FEED Services to support the Crux Project.

### Crux Project Description

Located Offshore Western Australia, 600km north of Broome and 160km north east of the Prelude FLNG Facility, the Crux Project consists of a Not Normally Manned (NNM) Platform in 165m water depth; Topsides to provide Gas dehydration prior to exporting through pipelines; with five (5) production wells, minimal processing utility systems, tie-back to the existing Prelude FLNG Facility via 160km 26” multi-phase flow export pipeline. Crux will be operated remotely from the Prelude FLNG Facility and only require periodic maintenance visits, significantly reducing the operational safety exposure to staff.

The Crux project will be operated by Shell in joint venture with SGH Energy WA Pty Ltd (15%) and Osaka Gas Crux Pty Ltd (3%).
